Admission Information

Thank you for your interest in the Generic (Basic) Nursing program at California State University, Los Angeles (CSULA). This is a wonderful time to be entering nursing. The need for professionally prepared nurses is great, and there are increasing opportunities for practice in many areas.

The CSULA School of Nursing (SON) has ONLY ONE applicant pool annually. From this applicant pool we will accept two classes for the 2010-2011 academic year (one beginning Fall 2010 and one beginning Spring 2011).

Our basic nursing program is a traditional full-time program over an eleven-quarter sequence. The program includes general education combined with theoretical and clinical nursing courses. Upon completion of the program you will be awarded a bachelor of science in nursing degree and will become eligible for licensure as a registered nurse. Students who enter in fall 2010 can expect to graduate in June 2013, and those who enter in spring 2011 can expect to graduate in December 2013. Courses are offered at variable days and times and involve travel to clinical sites in many areas of Los Angeles County. Our program is a demanding full-time program and is not compatible with a heavy outside workload.

Please read these instructions carefully and submit your completed forms by the applicable deadlines. Please adhere to the following application instructions.

****Note: The School of Nursing will not process incomplete and/or illegible application forms.***

It is the applicant's responsibility to provide complete and accurate materials by the appropriate deadlines. Applications that are incomplete will not be considered for review. If you have a change your address, name, and/or phone number during the application period you must notify the Nursing Advisement Office in writing as soon as possible. If we do not receive your information change you may lose priority for space.

Additional Information

Increasingly, clinical agencies are requiring that students (and faculty) be drug-free and may be subject to random drug testing. **Criminal background checks** are required by the California Board of Registered Nursing prior to initial licensure. This same procedure is also required by some of our clinical agencies prior to student rotations.

If you were **previously enrolled in a nursing program**, please attach a letter including the type of program, name of the school, school address, dates enrolled, and reason for leaving. Students who have not been successful in other programs are usually not accepted for admission to the CSULA basic program.

Disclosure of one's Social Security number is mandatory for licensure by the BRN in accordance with Section 30 of the Business and Professions Code and Public Law 94-455 (42 USCA 405 (c) (2) (C).

Because of the number of applicants for the program, completion of all entrance requirements does not ensure selection for the basic nursing program.

It is the responsibility of all applicants to check with the Financial Aid Office regarding loans, scholarships, state and federal grants. If you have not applied please do so as soon as possible.

APPROVED SUPPLEMENTAL CRITERIA FOR ADMISSION THE BASIC NURSING PROGRAM (NON-RNS)

Supplementary applications will be available September 1 - December 1, 2009

Students must complete the minimum prerequisite courses, ATI test, and meet the GPA requirements to be considered for admission into the Basic program. There are a maximum of 31 possible *supplemental criteria for admission points* which can be earned.

Applicants are ranked based on their points earned according to the supplemental criteria. The top-ranked students will be sent letters of acceptance.

Students will be ranked in order according to the following point structure:

Supplemental Criteria Points

Grade point average (GPA) in prerequisite courses

10 points max

The prerequisite GPA is computed using the following **six prerequisite courses**: Chemistry 151*, Biology 200A & 200B*; English 101*, Psychology 150*, and a *General Education Critical Thinking Course, or the equivalent courses taken elsewhere.

A **C-minus (C-)** grade in these courses is **not acceptable**. The School Of Nursing **will not recognize repetition of a course when the original grade was a C or better.**

Any grade of less than a "C" on a class required for nursing hurts your chance of admission, even if you have successfully repeated that class.

*** The above six prerequisite classes must be completed by March 23, 2010**

The prerequisite GPA is computed by averaging the grades earned in the courses, with each course equally weighted. If a course is repeated because of an unsuccessful first attempt, the grades are averaged in computing the GPA. No more than 1 repetition of any course is allowed. The minimum acceptable GPA for the prerequisite courses is 2.75.

2.75 - 2.99	=	1 point
3.00 - 3.19	=	2 points

ATI/TEAS (TEST OF ESSENTIAL ACADEMIC SKILLS)

This test is a mandatory requirement for all applicants.

Note: You must **first** submit your application to the CSULA School of Nursing for the Basic program **then** schedule your ATI/TEAS exam. All testers must create an ATI account prior to taking a paper/pencil test. They can create an account at www.atitesting.com by clicking on Create New Account and following the screen prompts. After a tester has registered on the site, the tester's personal paper/paper ID will displayed under Account Information. At this screen, the user will have an opportunity to print the paper/pencil ID. Each user should print and retain this and use it for identification on every paper/pencil test. This ID number will not change, the tester only needs to register once.

The Test of Essential Academic Skills (TEAS) is a scholastic aptitude test that is used as one component of the selection process for the admission of students into the basic nursing program. The TEAS consists of four content areas: Math, Reading, English, and Science. Applicants to the CSULA Basic Program must complete the examination with a **minimum passing National Percentile Rank** in each of the four subtest areas (currently the minimum score is the 40th percentile).

All subtests contain multiple-choice items with one correct answer. The applicant is directed to answer each item as accurately as possible within the allotted time. The reporting system for the TEAS includes a **composite score** for each of the four general areas. Sixteen sub-scores are generated within these categories to assess specific content mastery. Identifying areas of relative strength and weakness can help the student in preparing for nursing.

The **Math** subtest covers whole numbers, metric conversion, fractions and decimals, algebraic equations, percentages and ratio/proportion.

Reading covers paragraph comprehension, passage comprehension and inferences/conclusions.

The **English** subtest measures knowledge of punctuation, grammar, sentence structure, contextual words and spelling.

The **Science** portion of the exam covers science reasoning, science knowledge, biology, chemistry, anatomy and physiology, basic physical principles and general science.

Use of an ATI/TEAS study guide is HIGHLY recommended and can be purchased from ATI at www.atitesting.com.

***Note:* Examination fees are non-refundable and are good for this application period only.**

This notice is written to inform you of the steps necessary to register for the November 2009 TEAS exams. The TEAS exam will not be administered by the CSULA School of Nursing. If you have any questions regarding your TEAS registration (not the Exam) call the TEAS testing coordinator at (562) 943-4996. Please **do not** telephone CSULA School of Nursing.
