

CSULA-COH Collaborative Meeting Minutes
Training Faculty Meeting
Monday, January 22, 2007
6:00 p.m. – 8:00 p.m.
Platt 2 Conference Room, City of Hope

Present from CSULA: F. Gomez, P. LaPolt, J. Momand, E. Porter, S. Sharp, H. Singh, X. Wen, H. Xu

Present from COH: S. Chen, C. Glackin, M. Kalkum, S. Kane, T. Lee, R.J. Lin, B. Shen, T. O'Connor, G. Wuenschell

Topic	Major Points	Action Needed	Responsible Party
1. Overview	This was the first joint meeting of CSULA and COH faculty who will be participating in the Training Program. As such, Jamil and Susan gave an overview of the program and discussed the purpose of the meeting, which is to develop collaborative projects suitable for student trainees; the projects must be focused on cancer and so also provide an opportunity for CSULA faculty to develop research activities in the cancer arena. Collaborative projects will be posted on the website so that student trainees can select a project of interest for their training experience.		
2. Presentation of research projects	<p>The CSULA faculty were asked to discuss their research interests and how they envision applying their interests to cancer. COH faculty, in turn, were able to provide input about expertise they could bring to each project and other resources that are available at COH.</p> <p>Everyone was encouraged to bring a one-page abstract to the meeting and hard copies were distributed to the group.</p>	Abstracts will be submitted electronically to Jamil and Susan for distribution to the whole group.	Jamil & Susan will solicit these and distribute.
3. Discussion	Following the roundtable presentation of CSULA faculty interests, the group broke up into more informal conversations to pursue specific ideas and network.	Follow-up to solidify project ideas.	Facilitated by Jamil & Susan. Individual faculty will contact each other.
Next Meeting: TBD
