WALK-IN TUTORING SESSIONS
for
MATH 089, 090, 091, 102, 103
Fall Quarter 2009

This quarter, we are offering walk-in math tutoring (see schedule on back). During walk-in tutoring hours, you can see a tutor for short-term help without having an appointment. While waiting for the tutor, you can work on your homework (during walk-in hours only). The tutor will make every effort to work with each student. The time may vary between 5 to 10 minutes depending on the nature of the question and the number of students waiting for assistance. Please be patient. You are encouraged to work with and help other students while you are waiting. Explaining to others is an effective way for you to check your understanding and to help you remember the material. You might meet other students and decide to form your own math study group.

To use walk-in tutoring, just sign in with your Cal State L.A. photo I.D. card at the front counter. Go to the walk-in tutoring area and sit at the table assigned for your math course. You will be assisted on a first-come, first-served basis. If the session is not busy, raise your hand to get the tutor's attention. If the session is busy, the tutor will ask you to take one number at a time when you have a question. The tutor will work with students in order by number. The tutor will collect your number so when you have another question, take another number.

Come prepared by reading the assigned textbook chapter(s) and doing as many problems as you can. Bring your textbook and lecture notes with you. Expect to do your own work with the help of the tutor. If you bring in completed homework, the tutor will ask you to explain how you solved the problem.
