

INTRODUCTION TO HIGHER EDUCATION COURSE REQUIREMENT

FALL Quarter 2011

Note: This requirement must be completed by passing the course, no later than the second quarter of attendance at Cal State L.A.

University policy requires that all undergraduate students who do not have a bachelor's degree are required to pass a course that introduces them to higher education at Cal State L.A. Freshmen who have declared a major must meet this requirement by enrolling in the 101 course, entitled Transition to Higher Education, offered by the College that offers their major. Freshmen who have not declared a major should enroll in a section of UNIV 101, Introduction to Higher Education, offered through the University Academic Advisement Center. Undergraduate transfer students are required to complete a Transition to Cal State L.A. course (300 level) offered by the College that offers their major. However, as a result of the budget crisis, this requirement has been temporarily suspended, except for students in the Charter College of Education and the Department of Technology. All students with declared majors should see an academic advisor in their college/department prior to enrolling in the 100-level Introduction to Higher Education course or the 300-level Transition to Cal State L.A. course. Undeclared majors should see an academic advisor in the University Advisement Center, located in the University Library Palmer Wing, 1040A. Students who fulfill this requirement do not have to repeat it if they change majors.
