State Police Reserve Trainees Wanted

The State of California is standing up a State Defense Force to respond to state emergencies in California. This can include Civil Disturbance, Natural Disasters, and acts of Domestic Terrorism. The California State Military Reserve is the State Defense Force for California. We have NO federal mission, so we can not be federalized and can not be sent overseas. Our job is to take over the state military missions from the California National Guard when they are called to federal service.

With the California National Guard a third smaller than it was at the time of the 1992 Los Angeles Riots, and with so many of the remainder of CNG troops engaged in the Global War on Terror, the California State Military Reserve must be prepared to respond to a state emergency.
