

DSS Descriptions

Software Title	Description
Accounting 320A	Accounting software.
Adobe Acrobat Reader ver. 9	This software lets you view and print Adobe PDF files on a variety of hardware and operating system platforms. Acrobat Reader provides a host of features that enable you to submit PDF forms created with fillable form fields to such applications as Adobe Acrobat 7.0 Professional and Adobe Form Designer. Play back a variety of embedded multimedia content, such as QuickTime and MP3 files. Read and organize high-fidelity e-books. Activate search and accessibility capabilities built into your PDF files, and display Adobe Photoshop Album slide shows and electronic cards.
Adobe Creative Suite CS4	Adobe Creative Suite is a collection of graphic design, video editing, and web development applications made by Adobe Systems.
Amos 7	AMOS is an SPSS companion module that provides the user with a graphical user interface to perform structural equation modeling (SEM).
Amspec ver. 2.0.1.2	AMSPEC (Academic Mainframe Specially Center) is software for access to seven major financial analysis databases at Cal Poly San Luis Obispo.
Arc View	ArcView is the world's most popular desktop GIS and mapping software.. With ArcView you can create intelligent, dynamic maps using data from virtually any source and across most popular computing platforms. ArcView provides data visualization, query, analysis, and integration capabilities along with the ability to create and edit geographic data.
Audacity 1.2.6	Open source sound editor.
AutoDesk Maya (limited campus license)	Maya is modeling, animation, rendering, and visual effects software which offers artists and end-to-end workflow.
Business Policy Game (Mgmt 497)	A total enterprise simulation for undergraduate and graduate business policy/strategic management courses and for management development programs.
CAT Secure Brower	Alternative Browser
ChemBio Office 2008	ChemBio Office is a professional chemistry and biology application for chemists and biologists. The application provides an efficient means of correlating biological and chemical information.

Software Title	Description
Chime	As a tightly integrated member of MDL's ISIS family of products, MDL Chime lets scientists view chemical structures from within popular Web browsers, Java Applets, and Java applications.
CIS 457 - Java (ELVIS)	This software is written in Java for portability and accessibility from browsers.
CN 3D	Biochemistry software.
Cygwin	Cygwin is a collection of tools originally developed by Cygnus Solutions to allow versions of Microsoft Windows to behave in ways familiar to Unix users.
Deep View	Bioinformatics software.
EnCase 6.13	Forensic digital data collection and analysis software. Produces evidence files in either LEF or E01 format.
Final Draft (OAL license only)	Scriptwriting Software.
Final Draft AV (OAL license only)	Documentary Writing Software
Food Processor - ESHA	Nutrient database software
Ghost Script Viewer (GSView 4.7)	Converts PDF and Postscript files (has graphical interface).
HyperSnap-DX 6	HyperSnap-DX is a screen capture and image editing tool for Windows. It captures screens from standard desktop programs and even those hard-to-grab DirectX, Direct3D, 3Dfx Voodoo, and Glide mode games. It can capture frames from many software DVD players and other video playing software.
IDL 7.0	Programming language used for data analysis. IDL (Interactive Data Language) is vectorized, numerical, and interactive.
Integrated Accounting for Windows (IAW)	Tutorial on all aspects of computerized accounting and operating procedures for all Windows-based programs.
Interactive Mathematics	A package that helps improve and speed up the learning of mathematics for students at all levels of mathematical ability.
JAWS for Windows 10	Freedom Scientific Product. The most popular screen reader worldwide, JAWS [®] for Windows [®] works with your PC to provide access to today's software applications and the Internet. With its internal software speech synthesizer and the computer's sound card, information from the screen is read aloud.
KMPlayer	The KMPlayer is a versatile media player which can cover various

Software Title	Description
	types of container format such as VCD, DVD, AVI, MKV, Ogg Theora, OGM, 3GP, MPEG-1/2/4, WMV, RealMedia, and QuickTime among others. It handles a wide range of subtitles and allows you to capture audio, video, and screenshots in many ways.
Kurzweil 3000	Kurzweil 3000 is a program that enables conversion of print to electronic text which can be read to the user, and also offers a variety of study skills tools to assist with the learning process.
Lotus ScreenCam Player	A player will play both .SCM and .EXE format ScreenCam movies.
Macromedia Authorware (7.0) and Players Plug-in for IE	Macromedia Authorware (now part of Adobe Systems) is an interpreted, flowchart based, graphical programming language. Authorware is used for creating interactive programs that can integrate a range of multimedia content, particularly e-learning applications. The flowchart model differentiates Authorware from other authoring tools, such as Flash and Director which rely on a visual stage, timeline, and script structure.
Macromedia Flash Player Plug-in for IE	Flash Player is a lightweight, highly expressive client runtime that delivers powerful and consistent user experiences across major operating systems, browsers, mobile phones, and devices.
Macromedia Web Player Plug-in for IE	Additional Macromedia Shockwave/Flash functions.
Magic 11	For users who need low vision aids due to macular degeneration, retinitis pigmentosa, or other causes of low vision to take control of Web and software application pages.
MASM611	Assembly Language
Mathematica for Windows ver. 6	From simple calculator operations to large-scale programming and interactive-document preparation, Mathematica is the tool of choice at the frontiers of scientific research, in engineering analysis and modeling, in technical education from high school to graduate school, and wherever quantitative methods are used.
MATLAB 2006b	Numeric computation, technical graphics and visualization, and an intuitive programming language for applications in engineering and science
MC Web	"McWeb" is text-based HTML editor that makes it easy for anyone to create great-looking, professional Web pages. Includes free Javascripts.
MegaStat 11	MegaStat ® is a statistical add-in for Excel. It was written by Prof. Orris at Butler University.
Microsoft .Net	Software Development Kit to use with .Net Framework.

Software Title	Description
Framework SDK 1.1, 2.0, 3.0	
Microsoft Developer Network Library-Visual Studio .Net	Various documentation of how to use Microsoft Product.
Microsoft Frontpage 2003	FrontPage 2003 provides the features, flexibility, and functionality to help you build better Web sites. It includes the professional design, authoring, data, and publishing tools needed to create dynamic and sophisticated Web sites.
Microsoft Internet Explorer 7	Standard version of the standard MS browser. Does RSS feeds and such.
Microsoft Media Player 11 Series	Windows Media Player gives you more music and more choices, and for the first time makes it possible to sync high-quality music, video, and photos to the latest portable devices.
Microsoft Office 2007 with Publisher	Microsoft Office has evolved from a suite of personal productivity products to a more comprehensive and integrated system. Building on the familiar tools that many people already know, the Microsoft Office System includes programs, servers, services, and solutions designed to work together to help address a broad array of business problems.
Microsoft Outlook Web Access (OWA)	Browser tool available to access MS Exchange email.
Microsoft Project 2003	Microsoft Office Project gives you robust project management tools with the right blend of usability, power, and flexibility, so you can manage projects more efficiently and effectively. Builds Gannt charts.
Microsoft Reader for PC 2.1	Microsoft Reader facilitates reading thousands of available Microsoft Reader eBooks on an variety of devices besides a PC.
Microsoft Reader Text-to-Speech for English 1.0	Reads aloud anything that is pure text such as eBooks.
Microsoft Reader Works Standard	To be used with eBooks, as a proofreading tool, and other uses.
Microsoft SQL Analysis Services	Microsoft Analysis Services is a group of OLAP and Data Mining services provided in Microsoft SQL Server.
Microsoft Visio 2003	Microsoft Visio is diagramming software for Microsoft Windows. It uses vector graphics to create diagrams.
Microsoft Visual Basic 6.0	Visual Basic (VB) is a third-generation event driven programming language and associated development environment from Microsoft

Software Title	Description
	for its COM programming model. ^[1] Visual Basic was derived from BASIC and enables the rapid application development (RAD) of graphical user interface (GUI) applications, access to databases using DAO, RDO, or ADO, and creation of ActiveX controls and objects.
Microsoft Visual C++ 6.0	Microsoft Visual C++ (often abbreviated as MSVC) is a commercial integrated development environment (IDE) product engineered by Microsoft for the C, C++, and C++/CLI programming languages. It has tools for developing and debugging C++ code, especially code written for the Microsoft Windows API, the DirectX API, and the Microsoft .NET Framework.
Microsoft Visual Studio 2005	This package is a comprehensive interoperability solution which works with MSSQL databases.
MikTeX	A typesetting system for Microsoft Windows that is developed by Christian Schenk. It consists of an implementation of TeX and a set of related programs.
Mozilla Firefox	Internet Browser based on the original Mozilla open source platform. Considered faster than other browsers.
NetBeans IDE 6.7	The NetBeans Platform allows applications to be developed from a set of modular software components called <i>modules</i> . A module is a Java archive file that contains Java classes written to interact with the NetBeans
Netscape Communicator ver. 7.2	Netscape Communicator is an Internet suite than includes tools beyond the browser itself: Email client, HTML editor, calendar/organizer, and conference modules.
Network Associates VirusScan NT (McAfee) ver. 8.5.0i	Has two components, a virus scan "engine" and a definition repository ".dat" files.
Nutritionist Five ver 1.7	An application for nutritional science.
Oracle 9i Client	Oracle is a relational database management system. Client is the calling program component.
Oracle 9i Discoverer, revision 2	Discoverer is an intuitive ad-hoc query, reporting, analysis, and Web-publishing tool
Oracle9i Developer Suite (Designer, Forms, Reports, JDeveloper)	Middleware and report generating tools.
Oracle Jinitiator 1.3.1.21	Jinitiator allows a web enabled Oracle Forms client application to be run inside a web browser.

Software Title	Description
Oracle 10g Client	Oracle is a relational database management system. Client is the calling program component.
Oracle10g Developer Suite (Designer, Forms, Reports, JDeveloper)	Middleware and report generating tools.
PennWorld Table ver. 5.6 and ver. 6.1	Excel plug-in
Prolog	Prolog is a logic programming language. It is a general purpose language often associated with artificial intelligence and computational linguistics.
Quick Books	Accounting software.
Quick Time ver. 7.6.2	Real Player supports all the features that your Dell DJ supports. It exceeds any other free software when it comes to editing/creating/deleting your playlists.
Real Player SP	Multiplatform media player.
Roxio Creator Plus	CD and DVD creation software.
SeaMonkey	SeaMonkey is a free and open source cross-platform Internet suite. It is the continuation of the former Mozilla Application Suite, based on the same source code.
Second Life	Second Life is a virtual world developed by Linden Lab that launched on June 23, 2003 and is accessible via the Internet. A free client program called the Second Life Viewer enables its users, called Residents, to interact with each other through avatars. Residents can explore, meet other residents, socialize, participate in individual and group activities, and create and trade virtual property and services with one another, or travel throughout the world, which residents refer to as the grid. Second Life is for people aged 18 and over, while Teen Second Life is for people aged 13 to 17.
7-Zip	GNU open source file compression software for Windows.
SPSS for Windows 17: PASW Statistics 17	SPSS (originally, Statistical Package for the Social Sciences) was released in its first version in 1968 after being founded by Norman Nie, then a political science postgraduate at Stanford University,[1] and now Research Professor in the Department of Political Science at Stanford and Professor Emeritus of Political Science at the University of Chicago.[2] SPSS is among the most widely used programs for statistical analysis in social science. It is used by market researchers, health researchers, survey companies, government, education researchers, marketing organizations and others. In addition to statistical analysis, data management (case selection, file reshaping, creating derived data) and data documentation (a metadata dictionary

Software Title	Description
	is stored with the data) are features of the base software.
SSH Secure Shell 3.2.9	Founded in 1995, SSH Communications Security is a world-leading provider of enterprise security solutions and end-to-end communications security, and the original developer of the Secure Shell protocol.
StataQuest ver. 4	StataQuest is a software package developed to facilitate the creation of statistical laboratories with a Graphical User Interface (GUI).
The SAS System for Windows ver 8.2 (limited campus license)	SAS is an acronym for Statistical Analysis System but for many years has been used as an arbitrary tradename (for which the company has received trademark protection in the US and abroad) to refer to the company as a whole, its products having long since broadened beyond the statistical analysis sphere. SAS Institute is one of the largest privately-held corporations in North Carolina.
Sun Java Development Kit (JDK) ver. 1.3, 1.6	(JDK) A free Sun Microsystems product which provides the environment required for programming in Java. The JDK is available for a variety of platforms, but most notably Sun Solaris and Microsoft Windows.
Terminal Server Client	Terminal Services is Microsoft's implementation of thin-client terminal server computing, where Windows applications, or even the entire desktop of the computer running terminal services, are made accessible from a remote client machine.
THR 68HC11 Simulator V4.0	Microcontroller simulation package for electronic engineering. In addition to a command-line emulation of BUFFALO, the EVBU software provides a logic-analyzer-like interface to the 68HC11 port pins.
Web Lab Viewer Lite	The latest Service Pack for Windows XP—Service Pack 2 (SP2)—is all about security, and it's one of the most important service packs ever released. It provides better protection against viruses, hackers, and worms, and includes Windows Firewall, Pop-up Blocker for Internet Explorer, and the new Windows Security Center.
Wink	Tutorial and Presentation creation software, primarily aimed at creating tutorials on how to use software.
WinPcap	Tool for link-layer network access in Windows environments. It allows applications to capture and transmit network packets bypassing the protocol stack and other features.
WinRats	Windows Rats (Regression Analysis of Time Series). Analyzes time series and cross sectional data, developing and estimating econometric models, forecasting, etc.
Windows XP with SP3	A current Windows operating system revision.

Software Title	Description
Winzip ver. 9 SR1	WS_FTP is a graphical Windows tool for File Transfer Protocol to Unix operating systems.
