(Senate: 7/10/90; President: 9/13/90)

GOVERNING DOCUMENTS: 42 CODE OF FEDERAL REGULATIONS PUBLIC HEALTH SERVICE POLICIES ON RESEARCH MISCONDUCT (DEPARTMENT OF HEALTH AND HUMAN SERVICES, PUBLIC HEALTH SERVICE 42 CFR PART 50, RIN 0905AB91); CSU EXECUTIVE ORDER 890; ARTICLES 18 AND 19 OF THE COLLECTIVE BARGAINING AGREEMENT BETWEEN THE CALIFORNIA STATE UNIVERSITY AND THE CALIFORNIA FACULTY ASSOCIATION

"Misconduct in science (or research in any discipline) means fabrication, falsification, plagiarism, or other practices that seriously deviate from those that are commonly accepted within the scientific (academic) community for proposing, conducting, or reporting research. It does not include honest error or honest differences in interpretations or judgments of data."* If a faculty member is accused, in a written and signed statement, of misconduct in research, then that faculty member shall have the right to respond to that accusation and shall be entitled to a peer review of that accusation. If the peer review results in a recommendation that a reprimand or disciplinary action may be warranted, then the procedures of the COLLECTIVE BARGAINING Agreement between the Board of Trustees of the California State University and the California Faculty Association shall be followed. No record of the peer review process may be included in the faculty member's personnel action file.

*This policy is based on the Department of Health and Human Services, Public Health Service 42 CFR PART 50, RIN 0905AB91.

Procedures for Handling Alleged Misconduct in Research

1. When a written and signed allegation is made to the chair of the Committee on Academic Freedom and Professional Ethics that misconduct in research is occurring, or has occurred, a campus inquiry will be initiated and completed within 60 calendar days. The inquiry will be conducted by a three-member ad hoc subcommittee selected by the Committee on Academic Freedom and Professional Ethics from its membership.

2. The ad hoc subcommittee of the Committee on Academic Freedom and Professional Ethics will file a written report with the President indicating whether any further inquiry is necessary. A copy of the written report will be given to the individual against whom the allegation is made. The faculty member shall have the right to respond within 14 calendar days from the date of the initiation of the inquiry.

3. If there is no further action necessary, the individual against whom the allegation was brought forward is exonerated, and no further action will be taken except that the report will be held in a secured file in the office of the Academic Senate other than the faculty member's personnel action file for a period of three years.
40  4. If the inquiry of the ad hoc subcommittee of the Committee on Academic
41  Freedom and Professional Ethics indicates that a reprimand or disciplinary action
42  may be warranted, then the procedures in the Faculty Handbook and the
43  Agreement shall be followed.**

44  **If a federal grant in science is involved, then the Office of Scientific Inquiry (OSI) shall be
45  notified. At the completion of the investigation, within 120 calendar days from time of original
46  notification to the OSI, the OSI must receive a final report describing "The policies and
47  procedures under which the investigation was conducted, how and from whom the information
48  was obtained relevant to the investigation, the findings, and the basis for the findings, and
49  include the actual text or an accurate summary of the views of any individual(s) found to have
