Cal State L.A.'s Master of Business Administration (MBA) program is designed to develop general managers capable of working in an increasingly multicultural and global environment. Key elements include:

- Integrated modules that cross functional disciplines
- A common cohort experience
- Teamwork among both faculty and students
- Focus on global business awareness
- A participative, student-centered learning environment

The curriculum includes the following: Required Core courses (32 quarter units), Elective or Option courses (16 quarter units), Comprehensive Exam, and possible courses from the Foundations of Business list, mainly for students who do not have Bachelor's degrees in business administration. Any Foundations courses must be completed before undertaking the Required Core.

The MBA core courses are presented in a cross-functional, integrative manner that provides a comprehensive view of the structure of business operations. Students learn to view and analyze business problems from a variety of perspectives. The eight core courses provide the skills and competencies students will need to be effective business leaders in the 21st century.

OPTIONS

In conference with their graduate advisor, MBA candidates select graduate level courses for their 16-unit option from these areas:

- Accounting
- Business Economics
- Computer Information Systems
- Finance
- Health Care Management
- International Business
- Management
- Marketing
MBA Foundation (Pre-requisites)

Completion of an undergraduate degree in business administration from an accredited university pre-requisites may be waived by your advisor.
