MBA Alumna

“I didn’t know what to expect when I began the MBA program at CSULA. I only knew that it was going to be tough juggling work and school, and I just wanted to get my degree as soon as possible. While it was tough, I learned a lot, and surprisingly had fun earning my degree. The professors truly cared; they were passionate about what they taught and challenged me to think analytically. My classmates, who came from varied backgrounds, enriched my education and lent a hand when I stumbled. I am forever grateful for all the knowledge I gained, the experiences I had, and friendships I formed while earning my MBA.”
