

# What's Next?

# EXPLORATION AFTER FOCUS 2

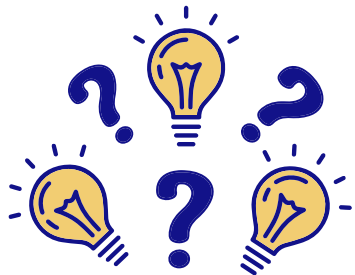

I've chosen a major!

## Congratulations!

You've started on a path.  
Next steps for exploration:  
**Linking major to career options.**

- Get inside the office with straight talk from real people in real jobs. Use **Candid Career** or **Vault Career Insider** on the CareerExpress.
- Every month employers come to Cal State LA to talk about the latest industry trends, what it's like to work at the company, career opportunities in their company and what they look for in a candidate. Use **Handshake** to view the career events calendar for information sessions and to search internships.
- Interview professionals, job shadow or volunteer to gain a better understanding of an occupation or industry. Use the **Career Development Guide** on "Informational Interviews" for questions to ask professionals in the field. Or, connect with volunteer opportunities through **EPIC**.

Thinking of  
2 - 3 majors.

## You're almost there!

Next steps for exploration:  
**Narrowing the options.**

- View suggested majors using **Focus 2** "Explore the Possibilities." Options with a light bulb icon indicate matches that best fit your work interests.
- Explore all the areas and types of employers you can pursue with those majors by using "**What can I do with this major?**" on the CareerExpress.
- Attend a "Choosing a major: charting a career" workshop offered by the Career Center. Use **Handshake** to view the career events calendar for workshops.
- Get inside the office with straight talk from real people in real jobs. Use **Candid Career** or **Vault Career Insider** on the CareerExpress.
- Attend a self & major exploration workshop.
- Make an appointment with a career counselor in the **Career Center**.

I'm still not sure.

## We're here to help!

Next steps for exploration:  
**Assessing the options and  
how they relate to you.**

- View suggested majors using **Focus 2** "Explore the Possibilities." Options with a light bulb icon indicate matches that best fit your work interests.
- Attend a "Choosing a major: charting a career" workshop offered by the Career Center. Use **Handshake** to view the career events calendar for workshops.
- Attend a self & major exploration workshop.
- Make an appointment with a career counselor in the **Career Center**.
- Attend a **CAPS Workshop or Support Group**.
- And any of the suggestions in the sections above!
