PROCEDURES TO ENROLL IN COURSES REQUIRING A PERMIT
CHDV 2000, 2100, 2200, 4260, & 4960

To receive a permit, unofficial transcripts and immunization records (if needed) must be presented in person to the CHDV Department office, located in ET A-535.

CHDV 2000
Prerequisites: CHDV 1400
Requires 32 hours of fieldwork and the following immunizations:
- TB (Tuberculosis) received within the last 12 months
- MMR (Mumps, Measles, Rubella) received once in lifetime
- TDAP (Tetanus, Diphtheria, and Pertussis) received within the last 10-years

CHDV 2100
Prerequisites: CHDV 1400 and CHDV 2000
Requires 32 hours of fieldwork and the following immunizations:
- TB (Tuberculosis) received within the last 12 months
- MMR (Mumps, Measles, Rubella) received once in lifetime
- TDAP (Tetanus, Diphtheria, and Pertussis) received within the last 10-years

CHDV 2200
Prerequisites: CHDV 1400 and CHDV 2000
Requires 32 hours of fieldwork that must be selected from a list provided by the Department when the permit issued. The following immunizations are also needed:
- TB (Tuberculosis) received within the last 12 months
- MMR (Mumps, Measles, Rubella) received once in lifetime
- TDAP (Tetanus, Diphtheria, and Pertussis) received within the last 10-years

CHDV 4260
Prerequisites: CHDV 1400 and CHDV 2000
Requires 40 hours of fieldwork at a hospital. The lists of hospital sites are available in the CHDV Office. The following immunizations are also needed:
- TB (Tuberculosis) received within the last 12 months
- NMR (Mumps, Measles, Rubella) received once in lifetime
- TDAP (Tetanus, Diphtheria, and Pertussis) received within the last 10-years

CHDV 4960
Prerequisites: Completion of 135 units; satisfactory completion of the Graduation Writing Assessment Requirement (GWAR), Block A2 & A3, & CHDV 3430, 3500, CHDV4920/COMD 4560
