

**CSULA POLS MA PROGRAM
TWO-YEAR ROAD MAP FORM**

Notes: (1) Students can take courses in any order they wish, and can also choose to take two or more electives in one semester in lieu of graduate-level courses. However, the model schedule below has the advantage of distributing the course load order to avoid more than two graduate seminars in one semester and to achieve completion of the program in a two-year period.

(2) It may also be possible to take concentration electives during the summer or winter intersession (check the schedule each term).

(3) If you are unable to complete the program within a two-year period due to a lack of POLS course offerings, contact the MA Advisor for assistance (it is possible that a course substitution may allow you to finish on time).
