SUBJECT:       Parking Enforcement Guidelines

I.     PURPOSE:

A. The purpose of Parking Enforcement is to ensure the University community
conforms to the parking regulations designed to provide organized access to the
parking facilities. This purpose is accomplished by a program of public
information, issuance of parking warnings, issuance of parking citations, and
towing of vehicles as necessary to gain compliance and organized access.

B. This order prescribes the parking enforcement guidelines to ensure consistency
in the enforcement of parking and recognizes that the various aspects of parking
are vital to the accomplishment of parking enforcement and Department goals.

II.    POLICY:

A. It is the policy of this Department that parking rules and regulations will be
applied fairly and consistently to all members of the public, and that all
Department members will comply with the parking rules and regulations.

B. It is the policy of this Department that no Department member will give special
parking privileges to any person that they have a familiar relationship with (i.e.
friends, family, co-workers, or acquaintances). This includes, but is not limited
to granting free parking, voiding citations, or the non-issuance of citations.

C. This order is for internal Department use only. This order and the
information contained herein shall not be released to the public.

III.   DEFINITIONS:

Due to the changing nature of parking enforcement, each Officer should exercise a
certain amount of discretion in the field. As such discretion is recognized, the
following words are defined:

A. “May” is permissive. The Officer may use discretion for the appropriate
   enforcement.

B. “Will”. Implies the Officer will do the act unless there are strong circumstances
   indicating a contrary action is appropriate enforcement.

   are extreme circumstances to the contrary.
