POLICY ON ALCOHOL AND ILLEGAL DRUGS

In accord with the Drug-Free Workplace Act of 1990 and Section 120a of the Higher Education Act, California State University, Los Angeles provides the following notification to all its students, faculty members, staff members and administrators:

Standards of Conduct

University standards prohibit the unlawful possession, manufacture, cultivation, use, or distribution of illegal drugs (as those terms are defined by State and Federal Laws) on campus property. The University also prohibits the illegal possession, distribution and consumption of alcoholic beverages to certain places, times, and occasions.

Illegal Drugs.

Federal and State laws on drug abuse provide for stringent penalties for illegal possession, manufacture, cultivation, sale, transportation, use of/administration or any narcotic drug; more stringent penalties for those convicted of previous narcotics offenses than for first offenders; and extremely stringent penalties for those who in any way involve minors in the use of narcotics.

A person is subject to prosecution if he or she illegally uses or is under the influence of narcotics, or knowingly visits a place where illegal narcotic use is occurring. Marijuana and other illegal organic substances are covered by similar laws and there is an additional violation against the cultivation or processing of these drugs in this state. The barbiturates (e.g. yellow jackets, red devils), and amphetamines (e.g. bennies, dexies, etc.) – called restricted dangerous drugs in the California Narcotic Act – are similarly covered; penalties for those convicted of illegal possession, manufacture, cultivation, sale, transportation, use or administration of these drugs are severe. In 1966, LSD and related hallucinogenic drugs were added to the list of restricted dangerous drugs, and their use for other than authorized research was prohibited by California law.

Alcohol.

The University’s policy with respect to alcohol follows the laws of the State of California and the City of Los Angeles. All persons, regardless of age, or status are governed by these laws and regulations. State and city laws, prohibit: (1) the purchase or sale to, possession of or consumption of alcoholic beverages by anyone under 21; (2) the serving of alcohol to an already intoxicated person; and (3) the manufacture, use of provision of a false state identification card, driver’s license, or certificate of birth or baptism. If convicted for violating these laws, punishment-up to and including jail sentence – may result.

Health Risks.

The serious health risks of various illegal drugs and alcohol are well documented. Use of illegal drugs or excessive use of alcohol can damage:

- **Physiological processes** including impaired brain functioning, digestive disorders, liver, heart, and lung problems;
- **Psychological and Mental processes** including possibly memory, judgment, personality reproduction and fetal development, and may induce psychotic episodes.

Many thousands of deaths each year are either directly attributable to substance abuse or indirectly from accidents, illnesses, and violence that are related to substance abuse. Brochures describing the specific health effects of various illegal drugs and of alcohol are available in the Health Center, the University-Student Union and in Residence Life.
Counseling and Medical Assistance

The University’s interest in the educational welfare of its students is demonstrated through primary concern for remedial measures. The University makes available the full counseling and medical resources to assist students in confronting constructively problems leading to involvement with drugs or alcohol. Every student concerned about problems resulting from the use of illegal drugs or alcohol is encouraged to seek help from the Health Center (telephone (323) 343-3333). The Health Center will treat such voluntary relationships as confidential and not subject to disciplinary action. The Health Center also maintains a complete listing of referral resources in the community that can provide students with specific assistance once an assessment has been made by a physician or counselor.

Disciplinary Sanctions

Illegal Drugs. State law (Section 41301, of Title 5, California Code of regulations) allows the University to take disciplinary action, up to and including suspension or expulsion, against any student who sells or knowingly possesses any illegal drug while on campus property. University action may be taken whether or not independent action is taken by civil authorities. Conviction in a criminal court does not necessarily preclude University disciplinary action.

Alcohol. University Administrative Procedure 19, Use of Alcoholic Beverages on Campus, explains the restrictions beyond City and State laws that govern the possession and use of alcohol on campus. Alcoholic beverages may only be sold at the approved catered events. Also, when a recognized student club sponsors an on campus event, attendance is limited to members of that club and their guests. Organizations violating this policy may be subject to administrative action ranging from probation to removal of official recognition. Individuals, who violate Procedure 19, are subject to disciplinary action up to and including suspension or expulsion (Source: 2000-2001 Eagle Planner and Handbook).

The use of alcoholic beverages must be in compliance with California State law and is strictly limited to persons 21 years of age and older.

Policy on Weapons

The use or possession of firearms or other weapons by students, employees, or visitors while on campus is prohibited by law. Duly sworn police officers are exempt from this law.

Convicted Sexual Offender Registration Laws

Effective October 28, 2002, Penal Code 290.1 was expanded and requires sexual offenders to register with the University Police. Convicted sexual offenders are required to register under Section 290 if they are residing on the university campus; enrolled as a student of the university; employed by the university, either full-time or part-time (includes paid employees or volunteers); or working or carrying on a vocation at the university (e.g. contractors) for more than 14 days or for an aggregate period exceeding 30 days in a calendar year (including paid workers as well as volunteers).

Persons listed above must register with the University Police within five working days of commencing enrollment or employment with the University. Registrants are also required to notify the University Police within five working days of ceasing to be enrolled or employed, or ceasing to carry on a vocation at the University.

Public information regarding sex offenders in California may be obtained by viewing the Department of Justice Online Megan’s Law Web Site at http://caag.state.ca.us/megan/. You can also obtain information by contacting the Los Angeles Police Department – Hollenbeck Station at (213) 485-2942.

The University encourages the accurate and prompt reporting of all crimes to the University Police and appropriate law enforcement agencies. Institutional personnel will assist students in notifying these authorities upon request.
In November of 2001 the California State University, Los Angeles Police Department was nationally accredited. The department met the Commission on Accreditation for Law Enforcement Agencies (CALEA), Inc.’s state-of-the-art standards. This voluntary process to gain accreditation is a highly prized recognition of law enforcement professional excellence. The process is designed to help formalize essential management practices; improve service delivery; strengthen crime prevention capabilities; and boost citizen and staff confidence in the agency.

The University Police have 19 police officer positions. University Police Enforcement Authority

Police Officers for the Department of Public Safety are vested with the same peace officer powers of arrest and responsibilities as other police officers within the State of California. Their authority is granted through legislative action defined in the California Education and Penal Codes. Their primary jurisdiction covers all property owned and operated by the University, including adjacent public streets and property.

Reporting Criminal Offenses to CSULA Other Than to Public Safety

Students are encouraged to report any problems with the campus environment to the Department of Public Safety’s University Police. We also encourage the reporting of crimes to any campus official such as the Office of Student Affairs staff, Health Center Counselors, Housing Services Directors, or any other campus administrator. These institutional personnel will assist students in notifying the appropriate law enforcement authorities upon request so an official police report may be taken. At minimum institutional personnel will notify the University Police of such a report for the inclusion in the annual statistical report.

ALCOHOL, OTHER DRUGS AND SEXUAL ASSAULT

• Alcohol and other drugs contribute to sexual assault and rape in a number of ways:
  Alcohol and other drugs can reduce inhibitions and cloud judgment.
  Some perpetrators deliberately drink alcoholic beverages to justify or excuse rape.
  Alcohol and other drugs can reduce the ability to recognize danger signals and to handle an assault.
• Alcohol and drug abuse can contribute to sexually transmitted disease and psychological depression.

POLICIES

The Student Health Center reports details of violent crime incidents involving patients it treats to local law enforcement agencies, as required by California Penal Code 11160-11163.5.2 This is not a formal police report and the police cannot take action until the victim makes a report of a sexual assault.3 In addition, the Student Health Center reports statistical data regarding certain incidents to the Department of Public Safety in compliance with the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act.4 The counselors consistently encourage their clients to report crimes to the University Police on a voluntary basis to prevent future crimes. The counselors do not disclose information to the University Police without the consent of the client, unless there is an immediate threat to safety. Any reporting of statistics to comply with this act is done by reporting numbers and not names so the information provided by clients is confidential for inclusion in the annual security report.

VIOLENCE AGAINST WOMEN ON CAMPUS

Nationally, college women are at high risk for becoming victims of violence. Dating/domestic violence, sexual assault, and stalking are serious problems on university campuses across the country.

- The highest rates of domestic violence are experienced by women ages 16 – 24.
- Between 1/4 and 1/3 of all lesbian, gay, bisexual, and transgender individuals experience domestic violence.
- Women with disabilities are at increased risk for sexual violence. Women with disabilities often experience abuse of longer duration compared to women without disabilities.
- Sexual assault is the second most common violent crime committed on college campuses.
- Most victims of campus sexual assault are full-time students; one-third of them are first-year students between 17 and 19 years of age.
- More sexual assaults occur on campus than off campus. Half of the off-campus assaults occur in the victim’s residence, while an additional one-third take place in off-campus housing such as fraternity houses.
- About one million women are stalked in the U.S. each year. More than half of these victims are between 18 and 29 years of age.
- On some campuses, as many as 35% of female students have been stalked.
- Most perpetrators are students known to the victim.

WHAT IS DATING/DOMESTIC VIOLENCE?

Dating/domestic violence is violence done by a date, boyfriend/ex-boyfriend, girlfriend/ex-girlfriend, roommate, fiancé, spouse, or family member that includes: verbal/emotional abuse - put-downs, public humiliation, manipulation, name-calling; isolation - keeping you from seeing family or friends; threats and intimidation - threats of suicide, harming you or family members, threatening to take away your children; physical abuse - hitting, slapping, kicking; and sexual abuse - rape, sexual assault.

Dating/domestic violence is a crime.

WHAT IS SEXUAL ASSAULT?

Sexual assault occurs when someone uses force, threats, coercion, alcohol or other drugs, or verbal pressure: to kiss you, touch your private parts, fondle you, rub against you; to put a finger or object in your vagina or anus; to put their penis in your vagina or anus; to put their mouth or tongue in contact with your genitals or anus; to make you put your mouth or tongue in contact with their genitals or anus.

Sexual assault is against the law.

WHAT IS STALKING?

Stalking includes someone repeatedly following you, watching you, phoning you, writing or e-mailing you, or communicating with you in other ways that seem obsessive or make you afraid or concerned for your safety. For example, someone: showing up at places where you were even though they had no business being there; leaving unwanted items for you to find; making unsolicited phone calls; following or spying on you; vandalizing your property; making threats against family, friends, or pets.

Stalking is a crime.
MYTHS & FACTS ABOUT VIOLENCE AGAINST WOMEN

Myth: It isn’t really a crime if a woman is raped by a boyfriend she has had sex with before.
Fact: Violence against women in any form is a crime, regardless of who committed the violent act. It is always wrong, whether the abuser is a family member; a date; a current or past spouse, boyfriend, or girlfriend; an acquaintance; or a stranger.

Myth: Sexual assault is an expression of passion and lust.
Fact: Sexual assault is a crime that uses power and control to dominate, humiliate and punish.

Myth: Women on college campuses do not have to worry about becoming victims of domestic violence.
Fact: Dating abuse is a problem on college campuses and often an indication of abuse in subsequent relationships and marriages.

Myth: Rape is an impulsive, uncontrollable act of sexual gratification.
Fact: Most rapes are planned and motivated by aggression, dominance and hatred, not sex.

Myth: If a woman is being stalked, and she just ignores the unwanted behavior, it will go away.
Fact: This is not necessarily the case. It is important to stop the stalker as soon as possible. The sooner action is taken, be it a police caution, warning or arrest, the greater the chance of stopping the stalking.

Myth: Battered women can always leave – and the situation can’t be that bad, or they would.
Fact: It may be difficult for a woman to leave her partner. Women stay in violent relationships for both emotional and practical reasons, including love, economic dependence, fear of reprisal, social isolation, and shame.

Myth: Sexual harassment is a part of life. Such behavior is usually just harmless flirtation or a way to compliment a woman.
Fact: Sexual harassment is conduct that makes women (and men) feel uncomfortable, humiliated, distressed, or fearful. This behavior is both unacceptable and illegal.

Myth: Women are to blame for putting themselves into situations that lead to sexual assault: staying out late, drinking, using drugs, going out alone, talking to strangers.
Fact: Women are not to blame. No woman (or man) does anything to “ask for” or deserve being sexually assaulted. Responsibility lies completely with the perpetrator.

WHAT YOU CAN DO TO HELP STOP VIOLENCE AGAINST WOMEN

• Recognize that no one deserves to be sexually assaulted, stalked, or victimized in any other way.
• Take responsibility for your actions.
• Never use force, coercion, threats, or alcohol and other drugs to engage in sexual activity.
• Clearly communicate your feelings and desires to your partner.
• Avoid alcohol and other drugs.
• Remember “no” means NO! and “stop” means STOP!
• Report incidents of violence to law enforcement and campus authorities.
• Discuss dating/domestic violence, sexual assault, and stalking with friends - speak out against violence and clear up misconceptions.
• Don’t condone jokes about violence against women, speak up when you hear one, and say that it is offensive.
• Don’t mistake submission for consent.
**WHAT YOU CAN DO IF YOU ARE A VICTIM**

**In general**
- Go to a safe place as soon as possible.
- Report the crime to University Police or local law enforcement.
- Call a domestic violence, sexual assault, or stalking hotline.
- Preserve evidence.
- Call a friend for help.
- Know that you are not at fault. You did not cause the abuse to occur, and you are not responsible for the violent behavior of someone else.

**Dating/domestic violence**
- Let trusted friends and neighbors know of your situation and develop a plan and visual signal for when you need help.
- During an assault do what you can to stay away from the kitchen (the abuser can find weapons, like knives) and rooms where you may become trapped. Try to reach a room that has a phone.
- If violence is unavoidable, make yourself a small target; dive into a corner and curl up into a ball with your face protected and arms around each side of your head, fingers entwined.
- Teach your children how to get to safety and call 911.
- Practice how to get out safely. Practice with your children.

**Sexual assault**
No one can tell you whether you should resist, fight back, or submit. Your best choice is what you believe will ensure your survival. Remain as calm as possible and keep assessing the situation as it happens. Possible strategies to use during an assault include:
- Negotiating or stalling for time.
- Distracting the assailant and escaping to a safe place.
- Screaming to attract attention.
- Physical resistance.
- Submitting – it’s very important to know that submission is not the same as giving consent.

**Stalking**
- Tell friends, family & coworkers about your situation. Let them know not to give anyone information about your schedule.
- Vary your daily schedule as much as you can and change your travel routes.
- Get rides to school or work with friends or family.
- Save all emails, correspondence, voice messages, and gifts for evidence.
- Change your email address, if necessary. Choose a gender-neutral name. Don’t fill out on-line profiles.
- Keep a log of all stalking incidents.

**REPORTING DATING/DOMESTIC VIOLENCE, SEXUAL ASSAULT & STALKING**

Cal State L.A. students, faculty, and staff are strongly encouraged to report all campus-related incidents of dating/domestic violence, sexual assault, and stalking to University Police or local law enforcement and the Office for Equity and Diversity. Reporting these crimes can help:
- Protect the victim’s safety.
- Ensure the victim receives proper medical care, support services, and information regarding their rights.
- Stop the perpetrator from committing future assaults.

**PERPETRATOR SANCTIONS**
Perpetrators of dating/domestic violence, sexual assault, stalking, and other forms of violence are subject to campus disciplinary action, up to and including expulsion. In addition, perpetrators are subject to arrest by University Police or local law enforcement authorities and criminal prosecution. Perpetrators may also face civil prosecution.
VICTIMS’ RIGHTS
Victims of campus-related sexual assault are legally entitled to certain rights that must be accorded by the University. These rights include:

• The right to have any and all sexual assaults against them treated with seriousness.
• The right, as victims, to be treated with dignity.
• The right to the full and prompt cooperation and assistance of campus personnel in notifying the proper authorities.
• The right to be free from any kind of pressure from campus personnel that victims (i) not report crimes committed against them to civil and criminal authorities or to campus law enforcement and disciplinary officials; or (ii) report crimes as lesser offenses than the victims perceive them to be.
• The right to be free from any kind of suggestion that campus sexual assault victims not report, or under-report, crimes because—
  Victims are somehow “responsible” for the commission of crimes against them;
  Victims were contributorily negligent or assumed the risk of being assaulted; or
  By reporting crimes they would incur unwanted personal publicity.

After campus sexual assaults have been reported, the victims of such crimes shall have the right to require that campus personnel take the necessary steps or actions reasonably feasible to prevent any unnecessary or unwanted contact or proximity with alleged assailants, including immediate relocation of the victim to safe and secure alternative housing, and transfer of classes if requested by the victims.

PROJECT SAFE

Project SAFE is Cal State L.A.’s campus-related violence against women prevention program. Project SAFE is a collaborative effort between Cal State L.A.’s Student Health Center, University Police, Cross-Cultural Centers, Center for Student Development and Programs, Educational Participation in Communities, Alumni Association, Student Housing; and the East Los Angeles Women’s Center (ELAWC), Center for the Pacific Asian Family (CPAF), Los Angeles District Attorney’s Office, Los Angeles City Attorney’s Office, and LAC+USC Medical Center, the Project’s community partners.

Project SAFE is supported by Grant No. 2002-WA-BX-0012 awarded by the Office on Violence Against Women, Office of Justice Programs, U.S. Department of Justice. Points of view in this document are those of the author and do not necessarily represent the official position or policies of the U.S. Department of Justice.
The Office of the Vice President for Student Affairs (SA 108) handles a variety of student-related issues. Questions regarding students’ rights, responsibilities, and disciplinary procedures, can be directed to the Office of the Vice President for Student Affairs. Student Discipline includes all crimes reported under the Clery Act. Violations of student conduct are enumerated in Article 1.1, Title V, of the California Code of Regulations, section 41301 (the Code). Copies of these violations are available in the University Catalog, Student Handbook, and the Office of the Vice President for Student Affairs. All allegations of misconduct are processed by the Office of the Vice President for Student Affairs, and the administration of disciplinary procedures are set forth in Executive Order 628 of the California State University. All violations of the Code, including rape, acquaintance rape, or other forcible or non-forcible sex offenses are subject to sanctions, including but not limited to probation, suspension, and expulsion. Copies of these procedures are available in the Office of the Vice President for Student Affairs.

Many offenses listed in the CA Penal Code, such as rape, theft, and assault, can and should be reported to the Office of the Vice President for Student Affairs. Student Affairs staff shall report such statistics to the University Police for inclusion in the annual security report. The Campus Police will file complaints with the criminal justice system when warranted. The Office of the Vice President for Student Affairs will proceed with offenses reported to the Campus Police on an administrative level on behalf of the University community. In cases of alleged sexual assault, the accuser and the accused are entitled to the same opportunities to have others present during campus disciplinary proceeding as with any other violation of the Code. In the case of sexual assault, however, the victim will be notified of the outcome within three (3) days of the final determination of the disciplinary proceedings. After an alleged sexual assault incident occurs, the university will assist the victim in changing academic and living situations if so requested and if such changes are reasonably available.

Keeping you informed . . .
Through its programs, facilities, operations and conferencing, Housing Services is committed to maintaining a clean and safe residential community that supports the mission of the University. As a residential community, the Housing Complex is operational year round, thereby employing emergency and safety precautions similar to other residential communities. In an effort to be proactive in addressing emergency and safety concerns, however, Housing Services provides staffing and develops educational programs.

A Resident Assistant (R.A.) is on call after normal business hours to assist residents facing any emergency or safety situations. A member of the Housing Services Emergency Duty team provides back up as needed to R.A.s. The R.A. staff also develops a monthly Safety program in collaboration with the University Health Center and University Police to provide information to residents about health and safety concerns. Furthermore, the Department of Public Safety’s University Police and Eagle Patrol conduct patrol checks as part of their normal routine.

Residents are provided with copies of Housing Policies and Community Guidelines. Violations of any policy or guideline can subject residents to disciplinary action up to and including termination of license agreement. Policies on the possession of alcohol, dangerous weapons and drugs are in compliance with all state and federal legislation. In the event that a resident is involved in a sexual assault (alleged or proven) or experiences any other emergency, the Housing Services staff will provide assistance in relocating that student on a temporary or permanent basis if so requested by the victim and if such changes are reasonably available.

If you have any questions about Housing Services and campus living please feel free to call the office at (323) 343-4800.

OC = On Campus; RF = Residence Facility (Campus Housing); NC = Non-Campus; PP = Public Property
**Crime Reporting:** The University encourages the accurate and prompt reporting of all crimes to the University Police and other appropriate law enforcement agencies.

**Crime Statistics:** Statistics are compiled in accordance with the Uniform Crime Reporting System of the Department of Justice and the Federal Bureau of Investigation. Statistics for the annual safety report are provided to the University Police from the Office of Student Affairs, Housing Services, Student Health Center, and neighboring law enforcement agencies. To comply with the act, we collect crime statistics from local police agencies, by providing the addresses of areas and locations that are contiguous, affiliated with, or adjacent to the property of CSULA. The monitoring and recording of criminal activity in which students engage in at off-campus locations of student organizations officially recognized by Cal State L.A. is conducted in cooperation with local law enforcement agencies.

**Outside Agency Assistance:** In cases involving both on-campus and off-campus jurisdictions, or when the resources of another agency can be used to facilitate the resolution of an investigation, the Department of Public Safety cooperates fully with state and local law enforcement agencies.

**Daily Logs:** The Department of Public Safety maintains a daily log of all department activity. The log is available for viewing at the station upon request.

**Lighting and Emergency Telephone Surveys** are conducted monthly by The Department of Public Safety to ensure that equipment is in working order. If equipment is found to be non-operational a repair request is generated to the responsible campus department. The University makes every effort to promote safety. Particular attention is paid to the design of landscaping, groundskeeping and exterior lighting. The Facilities Management Department and the Environmental Health and Safety Department also conduct regular safety inspections.

**Building Security Checks** are conducted during the evening hours by the Eagle Patrol. Eagle Patrol secures campus buildings starting at 10 p.m. Mondays through Thursdays, 5 p.m. on Fridays and Saturdays. Buildings are closed on Sundays except where special access has been pre-arranged.

**Distribution of Clery Information:** The Clery brochure “Partners in Public Safety” is distributed in a variety of ways. Information about the Clery brochures was sent as part of the summer quarter registration information to over 26,799 continuing students. Our Human Resource Management office and Registrar’s office include a Clery Postcard with perspective employee and student application materials. The Clery brochure is available at a number of locations throughout campus and electronically on the web at www.calstatela.edu/univ/police/brochure/index.htm.

**California State University, Los Angeles Graduation Rates**

Under the federal Jeanne Clery Disclosure of Campus Security Policy and Campus Crimes Statistics Act, institutions of higher education are required to disclose information to prospective and current students about institution graduation rates for first-time freshmen. The California State University draws its first-time freshmen from the top one-third of California’s high school graduates. Since 1960, the CSU has awarded more than 1.2 million baccalaureate degrees in hundreds of program areas. More than any other senior institution in California, the CSU has maintained access for students who need to juggle academic life with work and family obligations. The rate of graduation will vary depending upon the needs of the individual students to balance work, school and family priorities. Information specific to California State University, Los Angeles graduation rates appears below. Additional information regarding graduation rates of first-time freshmen is available in the Registrar’s Office.

The California State University, Los Angeles campus is comprised of six colleges — Arts and Letters; Business and Economics; Education; Engineering and Technology; Health and Human Services; Natural and Social Sciences.
Operating on a quarter based academic calendar; California State University, Los Angeles offers a variety of majors leading to bachelor’s and master’s degrees, and awards more than 3,000 academic degrees annually in the June graduation classes.

About one third of the campus’ 21,000 students are engaged in post baccalaureate study in programs leading to master’s and doctoral degrees; teaching, service, and specialist credentials; certificates; and other types of programs that prepare them for professional advancement.

California State University, Los Angeles six-year graduation rate for regularly admitted first-time freshmen in fall 1996 was 40%. After six years, 14% of fall 1996 first time freshman were still attending. Studies show that most of the students still continuing after six years will eventually graduate, so we predict eventual graduation rates for these students of about 54% for Cal State L.A.
