The Time and Labor system allows you to enter time online and uses an electronic approval process. If you have any questions or problems, consult with your supervisor.

Self Service Menu

Under Self Service, there are two sections, Report Time and View Time:

Report Time: contains your timesheet to enter your time

View Time: inquiry to view your total hours and their status and view the exception page.

You have access to enter time only for the current pay month. Once the pay month is over, you will not be able to add or adjust any time, contact your supervisor for assistance.

Report Time Menu

Under Report Time, click the Timesheet link. If you have multiple job records, the page will look similar to the next screen shot. If you only have one record number, the timesheet page will display.

This student has multiple records, choose the appropriate record number to enter your time. If you are unsure which record number to use, contact your supervisor for assistance.
