F-1 OPT Extension Instructions

The U.S. Department of Homeland Security has passed a new regulation permitting F-1 students in specific circumstances to allow an Optional Practical Training extension. The student must be currently employed or has been offered employment in a job related to his/her major area of study.

17-Month OPT Extension:
The student must have obtained a Bachelor, Master or Doctorate degree in certain STEM (Science, Technology, Engineering, and Mathematics) fields as defined in SEVIS. The employer must be registered in E-Verify, and agree to report to the Designated School Official in the International Office of a student’s termination or departure. The student must also agree to provide regular updates to the International Office of employment and personal contact information.

The application for extension may be submitted up to 120 days prior to the current OPT expiration date. Students may continue employment while the extension application is pending until a final decision on the I-765 or for 180 days, whichever comes first.

This extension is given ONCE ONLY. And the extension must be for the entire 17 month period. The expiration date of the OPT extension will be 17 months after the current OPT expiration.

Students cannot exceed 120 days of unemployment during the total 29 months of OPT work authorization.

**H-1B Automatic Extension:**

The second group of F-1 students to qualify for an extension is those who have properly filed or been selected for H-1B processing with a starting date of October 1. Due to the complexities involved in the cap gap extension, students will receive cap gap extensions in increments depending on which step of the H-1B process they are undergoing.

A student who is the beneficiary of a properly filed H-1B petition will have the OPT extended to June 2nd.

*Students submit:*
- An original statement on company letterhead from the employer that the student is the beneficiary listed on a properly filed H-1B petition (include student’s full name and CSULA CIN or date of birth), and
- Proof of delivery to a USCIS Service Center showing the date of receipt.

A student who is the beneficiary of a wait listed H-1B petition will have OPT extended to July 28th.

*Students submit:*
- A copy of the wait list letter from USCIS addressed to the employer.

A student who is the beneficiary of a receipted H-1B petition will have OPT and F-1 status extended to September 30th.

*Students submit:*
- A copy of the receipt and/or approval notice.

Student must request a new I-20 from the International Office with work authorization extension. Students are responsible for providing the required documents to the International Office and requesting a new I-20 with the work authorization extension. The extension will automatically terminate once the H-1B petition has been rejected, denied, or revoked. The student must depart the U.S. or return to full time studies within 60 days upon receiving notice of the rejection, denial or revocation.

**Note:** For students whose post-completion OPT expired prior to the filing date of the H-1B petition, the students are permitted to legally stay in the U.S. until September 30 unless the H-1B petition for the student is rejected, denied, or withdrawn. However, these students will **NOT** have work authorization.
