7.3 Collection development
H. Yu explained that the guidelines for collection development which are online for all disciplines and were developed many years ago. There are three collection levels: Basic, Advanced Basic, and Research. There are single purchase books and e-resources. Collections development needs to be a part of the strategic plan.

Comments were made that faculty don’t know what Library resources are available. Possible solutions for this:
- Need to reach out to faculty to let them know what the Library has to offer
- Effectiveness of Library Liaisons
- More communications, person-to-person
- Liaisons should attend Department meetings
- Adjunct faculty in particular are unaware of Library resources; need to reach out to them via email – department chairs can assist with this

How long does it take for the Library to receive a title when ordered? Books take 5-10 days to arrive after ordered.

Questions that are in the faculty and student surveys that are administered in the Spring – share with the LSC.
