7. **Emergency Response Guide for Students, Staff and Faculty**
   The committee discussed the need for an emergency response guide and agrees the University should create one. In the absence of a charge, the committee is not sure what the next steps are. R. Ledesma offered to relay the request to the Executive Committee for a formal charge.

8. **Liaison Reports**

   8.1. **Executive Committee Liaison**
   R. Ledesma reported there were a couple of concerns the committee should discuss and consider. How do we balance priority registration for students with the decrease in course offerings that are available? Discussion ensued. Various ideas and recommendations were shared. The committee agreed to continue the discussions before making a recommendation.

   What are some of the issues inhibiting our students from graduating? Discussion ensued and it was agreed to add Enrollment Issues on the agenda for the next meeting.

   8.2. **Academic Advisement Subcommittee Liaison**
   M. Adamian indicated the committee has not met to date. He is concerned as he is also the chair for the NSS advisement pilot and the committee has been working diligently. M. Adamian would like to know what the status is of advisement at the University level.

   8.3. **Associated Students, Inc.**
   C. Monroy reported on the lack of coordination with the calendars on campus; University-Student Union calendar, Associated Students, Inc. calendar and the University Calendar of Events. She further indicated there was a campus-wide programming committee that has been defunct for the last 6 years. How can we reinstate it?

   C. Monroy further reported ASI recently passed two resolutions:
   1. Resolution To Encourage Faculty and Administrator Involvement
   2. Resolution In Opposition to the CSULA Student Success Fee

   ASI held a Shared Governance Town Hall Meeting on the Student Success Fee on Tuesday, February 7, 2012, at 1:30 p.m. The purpose was to provide details about the
Student Success Fee funding allocation breakdown and the alternative consultation process. It also offered students the opportunity to engage with and ask questions of a panel consisting of student representatives from A.S.I. and the Student Success Fee Initiative Committee. The forum was well attended. The students indicated they do not need more technology; they need more classes. ASI is concerned the money will not be appropriately spent.
