In the spirit of continuous improvement, the External Reviewer should identify issues appropriate for further improvement prior to the next five-year review.

   - **Recommend Reaffirmation, but with specific concerns for transmittal to the program:** The concerns cited may not be sufficient to preclude a favorable recommendation, but the report should reinforce the External Reviewer's recommendation that the program attend to these concerns in its Continuous Improvement Plan.

   - **Recommend the program remain under Continuing Review:** The recommendation cites concerns the program must rectify before a recommendation for continuation can be contemplated. The External Reviewer's Report should provide specific information on a) actions or outcomes required to address deficiencies, b) seriousness of the deficiencies identified and the length of time anticipated to address them, and c) nature and frequency of reports and reviews that will be required.

   - **Recommend Suspension:** The External Reviewer’s recommendation cites deficiencies that so seriously impair overall quality that the program is asked to show cause why it should not be terminated. This recommendation is reached only when the External Reviewer has concluded that the program cannot or will not rectify the cited deficiencies.
