*2015/2016: Data compiled from 11 month range due to Q2S conversion
*2016: Fall Semester

A note regarding important CAPS scheduling changes for AY 2016-2017 to meet student needs:

- All students who request services will be seen by a licensed clinician at least once
- CAPS Counseling staffing has grown since 2012 (with the recent addition of 3 Counselors and a Director); however, our student need is rapidly rising
- Students who request services will be seen as soon as possible, usually same day, will be screened for high risk concerns, and will be appropriately referred to either individual therapy, therapy groups, or skill-based workshops
- After completing three skill-based workshops over three weeks, clients who were originally referred to groups will become eligible for individual therapy
- All students who request services will be seen at least once
- More students will be seen, more high risk students will be identified and given appropriate services, greater normalization/destigmatization of mental health services, more efficient delivery of services, overall a healthier and safer campus community
