Units in Blocks B, C, and D depend on major. See classification of majors in the <i>Schedule of Classes</i>. Other courses may be substituted in some categories in conjunction with a student's major. Consult a department or division adviser for a list of approved GE replacement courses. ENGL 102 is required of all students who entered Cal State L.A. Summer 1993 or later, and who are subject to the requirements of the 1993-95 or later GE catalog. A minimum C grade is required. A 'C-' grade is not acceptable. WPE – Writing Proficiency Exam is to be taken after completion of ENGL 102. Engineering and Computer Science majors' GE program differs. See an academic adviser in your major department. | | | | | |
| <p>Block F – Upper Division Theme (12 units). Students must complete one course in each of the three discipline areas (Natural Sciences, Social Sciences, and Humanities) as required in a theme. Completion of basic subjects requirements (Block A) and at least one course each from blocks B, C, and D are pre-requisites for Block F theme courses</p> | | | | | |
| <p>Block G – Diversity Requirement (2 courses) Students must complete two courses certified as diversity courses. Diversity courses are designated with a (d) by each course. These courses may be completed at either the general education lower division level in blocks C, D, E or upper division level from block F (the Theme). Diversity courses are required for students who are subject to Fall 1998 or later GE requirements.</p> | | | | | |

G.E. Upper Division Theme and Diversity Requirements

A. CHALLENGE OF CHANGE IN THE DEVELOPING WORLD

Coordinator: Msia Clark

This theme explores the dilemmas faced by the peoples of Africa, Asia, the Middle East and Latin America as they struggle to overcome legacies of colonialism and economic dependence. The developing countries are characterized by severe social and cultural tensions, physical complexities and challenges to themselves and the rest of the world. Their current integration into the global economy marks a crucial stage in world history. The natural courses assess their physical settings, constraints and possibilities; the social science courses analyze social, political and economic processes of change; the humanities component examines the dynamic interplay among arts, religion and cultural values.
