#### INTRODUCTION TO PARTS I AND II

#### **BACKGROUND**

California State University, Los Angeles is a publicly owned University within the California State University (CSU) system, which offers excellent and innovative educational opportunities to an urban student population that reflects the diversity of the Los Angeles basin. Educational opportunities include: 1) preparing students to appreciate, engage, enhance and transform the social, cultural, civic, and workplace structures of American and global societies; 2) providing students with capabilities, skills, and opportunities to take full advantage of lifelong learning, including graduate and professional studies, and opportunities to participate in research, scholarly, and creative activities; 3) offering students tools for personal and academic achievement, economic mobility, and healthier lives; 4) serving as a gateway among the California State University, Los Angeles community, the greater Los Angeles community, and word community for shared educational and cultural life; and 5) providing high quality professional services to all constituencies of the University.

The University was founded in 1947.

Affirmative action is a term that encompasses any measure adopted by an employer to correct or to compensate for past or present discrimination or to prevent discrimination from recurring in the future. Affirmative action goes beyond the simple termination of a discriminatory practice.

As stipulated in federal regulations, a prerequisite to the development of a satisfactory affirmative action plan is the evaluation of opportunities for protected group members, as well as an identification and analysis of problem areas inherent in their employment. Also, where a statistical analysis reveals a numeric disparity between incumbency and availability (and/or hiring rates for veterans), an adequate AAP details specific affirmative action steps to guarantee equal employment opportunity. These steps are keyed to the problems and needs of protected group members. For minorities and women, such steps include the development of hiring and promotion goals to rectify the disparity between incumbency and availability. For protected veterans and individuals with disabilities, such steps will include a thorough review of the company's outreach efforts to determine the effectiveness of such efforts in closing the hiring and/or utilization gaps. It is toward this end that the following AAP of California State University, Los Angeles was developed.

#### APPLICABLE AFFIRMATIVE ACTION LAWS AND REGULATIONS

California State University, Los Angeles' AAP for minorities and women (Part I) has been prepared according to Executive Order No. 11246, as amended, and Title 41, Code of Federal Regulations, Part 60-1 (Equal Employment Opportunity Duties of Government Contractors), Part 60-2 (Affirmative Action Programs of Government Non-Construction Contractors; also known as "Revised Order No. 4"), and Part 60-20 (Sex Discrimination Guidelines for Government Contractors).

California State University, Los Angeles has developed separately an affirmative action plan for protected veterans and individuals with disabilities (Part II) prepared in accordance with the Rehabilitation Act of 1973, Section 503, as amended and Title 41, Code of Federal Regulations, Part 60-741(Affirmative Action Program for Individuals with Disabilities), the Vietnam Era Veterans' Readjustment Assistance Act of 1974, Section 4212, as amended, and Title 41 Code of Federal Regulations, Part 60-300 (Affirmative Action Program for protected veterans).

Under Section 503, a business with a federal contract of more than \$15,000 is required to treat qualified individuals with disabilities without discrimination on the basis of their physical or mental disability in all employment practices, and to take affirmative action to employ and advance in employment individuals with disabilities. If the company has at least 50 employees and a single contract of \$50,000 or more, then it must also develop a Section 503 AAP, as described in 41 CFR 60-741, Subpart C. Section 503 applies to businesses with federal construction contracts, but not to businesses with federally assisted construction contracts.

Under <u>VEVRAA</u>, a business with a federal contract of \$150,000 or more is required to treat qualified individuals without discrimination based on their status as a protected veteran in all employment practices, and to take affirmative action to employ and advance in employment protected veterans. If the company has at least 50 employees and a single contract of \$150,000 or more, then it must also develop a VEVRAA AAP, as described in <u>41 CFR 60-300</u>, <u>Subpart C</u>. VEVRAA applies to businesses with federal construction contracts, but not to businesses with federally assisted construction contracts.

#### COVERED GROUPS UNDER AFFIRMATIVE ACTION LAWS AND REGULATIONS

Coverage under affirmative action laws and regulations applies to:

Women and minorities who are recognized as belonging to or identifying with the following race or ethnic groups: Blacks/African Americans, Hispanics/Latinos, Asians/Pacific Islanders, and American Indians/Alaskan Natives.

Any veteran who is entitled to compensation (or who but for the receipt of military retired pay would be entitled to compensation) under laws administered by the Secretary of Veterans Affairs, or who was discharged or released from active duty because of a service-connected disability.

Recently separated veterans: any veteran currently within three-years of discharge or release from active duty.

Veterans who served on active duty in the U.S. military during a war or campaign or expedition for which a campaign badge is awarded.

Veterans who, while serving on active duty in the Armed Forces, participated in a United States military operation for which an Armed Forces service medal was awarded pursuant to Executive Order 12985.

### PROGRAM TERMINOLOGY

The terms, "comparison of incumbency to availability," "deficiency," and "problem area," appearing in this AAP, are terms California State University, Los Angeles is required by government regulations to use. The criteria used in relation to these terms are those specified by the government. These terms have no independent legal or factual significance whatsoever. Although California State University, Los Angeles will use the terms in total good faith in connection with its AAP, such use does not necessarily signify that the University agrees that these terms are properly applied to any particular factual situation and is not an admission of non-compliance with EEO laws, regulations, and objectives.

The comparison of incumbency to availability contained herein is required by Government regulations to be based on certain statistical comparisons. Geographic areas and sources of statistics used herein for these comparisons were used in compliance with Government regulations, as interpreted by Government representatives. The use of certain geographic areas and sources of statistics does not indicate California State University, Los Angeles' agreement that the geographic areas are appropriate in all instances of use or that the sources of statistics are the most relevant. The use of such geographic areas and statistics may have no significance outside the context of this AAP. Such statistics and geographic areas will be used, however, in total good faith with respect to this AAP.

The grouping of job titles into a given job group does not suggest that California State University, Los Angeles believes the jobs so grouped are of comparable worth.

Whenever the term "goal" is used, it is expressly intended that it "should not be used to discriminate against any applicant or employee because of race, color, religion, gender, or national origin," as stated in Title 41 Code of Federal Regulations, Part 60-2.16(e)(2).

This AAP is not intended to create any contractual or other rights in any person or entity.

#### **RELIANCE ON EEOC'S GUIDELINES**

Although California State University, Los Angeles does not believe any violation of Title VII of the Civil Rights Act exists, it has developed this AAP in accordance with and in reliance upon the EEOC's Guidelines on Affirmative Action, Title 29 Code of Federal Regulations, Part 1608.

#### REPORTING PERIOD

This AAP is designed to cover the following reporting period,

- AAP implementation period: January 1, 2022 December 31, 2022
- Employee (snapshot) data: October 31, 2021
- Transaction period: November 1, 2021 October 31, 2021

### STATEMENT OF PURPOSE FOR PARTS I AND II

This AAP has been designed to bring women and men, members of minority groups, protected veterans, and individuals with disabilities into all levels and segments of California State University, Los Angeles' workforce in proportion to their representation in the qualified relevant labor market.

The AAP, therefore, is a detailed, results-oriented set of procedures which, when carried out, results in full compliance with equal employment opportunity requirements through the equal treatment of all people.

There are several reasons for this. First, California State University, Los Angeles is subject to and must address a variety of State and Federal laws and guidelines dealing with equal employment opportunity and affirmative action. These guidelines and requirements are in themselves somewhat technical and complex. In addition, relevant court decisions, which are often useful in interpreting, but sometimes conflicting with these requirements and guidelines, must be taken into account when developing and implementing the AAP. Furthermore, in determining California State University, Los Angeles' current equal employment opportunity and affirmative action position and its desired future achievements, numbers, percentages, statistics, and numerous calculations and computations must come into play.

The technical, legal, and mathematical aspects of the AAP, however, all have one common purpose—to allow us to properly identify three key concepts:

- 1. Where we stand now,
- 2. Where we must go,
- 3. How best to get there.

These three concepts <u>are</u> the Affirmative Action Plan.

#### PART I: AAP FOR MINORITIES AND WOMEN

CHAPTER 1: ORGANIZATIONAL PROFILE 41 C.F.R. § 60-2.11

# **Workforce Analysis/Lines of Progression**

California State University, Los Angeles conducted a workforce analysis to identify employees by gender and race/ethnicity in each job title. The data was collected from payroll records dated November 1, 2021.

Job titles are listed by organizational unit. Job titles are listed from lowest to highest paid. The list includes all job titles, including departmental supervision, exempt, and nonexempt titles.

For each job title, California State University, Los Angeles identified the total number of employees, the number of male and female employees, the total number of minority employees, the male and female minority employees, the total number of employees who are White, Black, Hispanic, Asian, American Indian or Alaskan Native employees, Native Hawaiian or Pacific Islander, and Two or More races, and the male and female employees within each of these race/ethnic groups.

# **Lines of Progression**

Developed in conjunction with the workforce analysis is information on California State University, Los Angeles' lines of progression. Lines of progression (career ladders/career paths) identify the job titles through which an employee can move to the top of a line. For each line of progression, applicable departments are identified. These are the departments which employ persons in the job titles in the specified line of progression. Some lines of progression are limited to only one department, while others are found throughout several departments.

The lines of progression provide useful information regarding patterns of vertical and horizontal movement throughout our workforce. These patterns will be evaluated to ascertain whether they provide to our employees the optimum career mobility and opportunities for advancement.

See the Workforce Analysis/Lines of Progression for the results per organizational unit.

# CHAPTER 2: JOB GROUP ANALYSIS 41 C.F.R. § 60-2.12

Although the workforce analysis was conducted individually for every job title, after it was completed, job titles were grouped for the comparison of incumbency to availability and for setting goals. There were several reasons for grouping jobs.

Many job titles are so similar in content that handling them individually in the AAP is not necessary. Grouping together these very similar titles is appropriate for the comparison of incumbency to availability. For many job titles, the availability data that can be collected is limited, and the same data must be used for several related jobs. Therefore, grouping these related titles together is logical. Also, many job titles have so few incumbents in them that identifying disparities between incumbency and availability by job title is meaningless—as problem areas would be identified in terms of fractions of people. By grouping several similar titles and increasing the number of employees involved, a meaningful comparison can be conducted; any identified problem areas are more likely to be in terms of whole people. Consequently, goals established to correct problem areas are also more likely to be in terms of whole people.

The three reasons for grouping job titles all discuss "similar" or "related" jobs. That is the most critical guideline in creating job groups. Above all, the job titles placed into a job group must be more similar or related to each other than the job titles in other job groups.

Job groups must have enough incumbents to permit meaningful comparisons of incumbency to availability and goal setting. Ideally, if a job group is identified as containing a problem area, it should be large enough that a goal of a least one whole person can be established. No minimum size has been established for this purpose, however, since it is dependent not only on the size of the job group, but also on the size of the availability percentage and the number of minorities or women already employed in the job group.

California State University, Los Angeles did not combine job titles with different content, wages, or opportunities if doing so would have obscured problem areas (e.g., job groups which combine jobs in which minorities or women are concentrated with jobs in which they are underrepresented).

# CHAPTER 3: PLACEMENT OF INCUMBENTS IN JOB GROUPS 41 C.F.R. § 60-2.13

Each job group appears on a Job Group Report with a job group name and number. The report lists each job title in the job group. For each job title, the worksheet provides the following information: EEO reporting category, job title, employee headcounts for each job title, and overall percentages by gender and race/ethnicity as of November 1, 2021.

See the *Job Group Analysis* for the listing of the job titles and the associated race and gender headcounts per job group.

# CHAPTER 4: DETERMINING AVAILABILITY 41 C.F.R. § 60-2.14

"Availability" is an estimate of the proportion of each sex and race/ethnic group available and qualified for employment at California State University, Los Angeles for a given job group in the relevant labor market during the life of the AAP. Availability indicates the approximate level at which each race/ethnic and sex group could reasonably be expected to be represented in a job group if California State University, Los Angeles' employment decisions are being made without regard to gender, race, or ethnic origin. Availability estimates, therefore, are a way of translating equal employment opportunity into concrete numerical terms. Correct comparisons of incumbency to availability, worthwhile and attainable goals, and real increases in employment for problem groups depend on competent and accurate availability analyses. With valid availability data, we can compare the percentages of those who could reasonably be expected to be employed versus our current employment (from the workforce analysis), identify problem areas or areas of deficiency, and establish goals to correct the problems.

### Steps in Comparison of Incumbency to Availability

# **Identify Availability Factors**

The following availability factors are required of federal government contractors for consideration when developing availability estimates for each job group:

- 1. External Factor: The external requisite skills data comes from the 2006-2010 American Community Survey (ACS) Census of Population data.
  - A. Local labor area: Residential Zip Code
  - B. Reasonable labor area: National

See the *Zip Code Analysis* report for the counties included in the local labor area. Note: Zip code analysis results only apply to job groups where populated census data is available.

2. Internal Factor: The percentage of minorities or women among those promotable, transferable, and trainable within the contractor's organization. See the *Internal Availability Analysis* for more detail.

Assign Internal and External Factor Weights: Weights were assigned to each factor for each job group. A combination of historical data and experience were used to determine the weights. Weights were never assigned in an effort to hide or reduce problem areas.

Identify Final Availability: Weights were multiplied by the component-specific data to produce weighted data for each component. Weighted data for each component was summed. This produced a final availability estimate for each sex and race/ethnic group, as well as for minorities in the aggregate.<sup>1</sup>

See the *Availability Analysis* for the availability breakdown for each job group.

<sup>&</sup>lt;sup>1</sup> In most cases, the final availability report (and most other technical reports in this AAP) only includes data/information for females and minorities in the aggregate.

# CHAPTER 5: COMPARING INCUMBENCY TO AVAILABILITY 41 C.F.R. § 60-2.15

Once final availability estimates were made for each job group, California State University, Los Angeles compared the percentage of incumbents in each job group to their corresponding availability. A comparison was made between the percentage employed as of November 1, 2021 and that group's final availability.

See the Comparison of Incumbency to Availability for the results per job group.

# CHAPTER 6: PLACEMENT GOALS 41 C.F.R. § 60-2.16

California State University, Los Angeles has established an annual percentage placement goal whenever it found that minority or female representation within a job group was less than would reasonably be expected given their availability. In each case, the goal was set at the availability figure derived for women and/or minorities, as appropriate for that job group. These goals take into account the availability of basically qualified persons in the relevant labor area. They also take into account anticipated employment opportunities with our organization. Goals are not rigid and inflexible quotas which must be met, but are instead targets reasonably attainable by means of applying every good faith effort to make all aspects of the entire AAP work. These goals will be reached primarily through recruiting and advertising to increase the pool of qualified minority and female applicants and through implementation of our action-oriented programs (see Chapter 9). Selections will occur only from among qualified applicants. Goals do not require the hiring of a person when there are no vacancies or the hiring of a person who is less likely to do well on the job ("less qualified") over a person more likely to do well on the job ("better qualified"), under valid selection procedures. Goals do not require that California State University, Los Angeles hire a specified number of minorities or women.

Goals shall not be rigid and inflexible quotas which must be met, but are instead objectives or targets reasonably attainable by means of applying every good faith effort to make all aspects of the entire AAP work. A goal is a guidepost against which California State University, Los Angeles, a community group, or a compliance agency can measure progress in remedying identified deficiencies in California State University, Los Angeles' workforce. By setting realistic goals, based on expected vacancies and anticipated availability of skills within the relevant labor area, and using a job-related selection system, California State University, Los Angeles should be able to meet the goals, assuming it conducts effective recruitment and advertising efforts, when applicable, to ensure an adequate pool of qualified minority and/or female qualified applicants from which to make selections.

In establishing placement goals, the following principles apply:

- (1) Placement goals may not be rigid or inflexible quotas, which must be met, nor are they to be considered as either a ceiling or a floor for the employment of particular groups.
- (2) In all employment decisions, the University must make selections in a nondiscriminatory manner. Placement goals do not provide the University with a justification to extend a preference to any individual, select an individual, or adversely affect an individual's employment status, on the basis of that person's race, color, religion, sex, sexual orientation, gender identity, or national origin.
- (3) Placement goals do not create set-asides for specific groups, nor are they intended to achieve proportional representation or equal results.
- (4) Placement goals may not be used to supersede merit selection principles. Affirmative action programs prescribed by the regulations in this part do not require the University to hire a person in preference to a more qualified one.

In establishing goals, California State University, Los Angeles considered the results which could reasonably be expected from putting forth every good faith effort to make the overall AAP work. The University involved Human Resources Management staff, department heads, unit managers and supervisors in the goal-setting process. Goals were not established that would exclude <u>any gender or race/ethnic group</u>.

See the *Placement Goals* report for each job group and the *Goals Progress Report* for progress made since the previous AAP.

# CHAPTER 7: DESIGNATION OF RESPONSIBILITY 41 C.F.R. § 60-2.17(a)

- 4. Implement the internal promotion and transfer of all employees under their supervision consistent with AAP goals and objectives.

# CHAPTER 8: IDENTIFICATION OF PROBLEM AREAS 41 C.F.R. § 60-2.17(b)

### **Terminology**

The phrases "comparison of incumbency to availability," and "problem area" appearing in this chapter are terms California State University, Los Angeles is required by government regulations to use. The criteria used in relation to these terms are those specified by the government. These terms have no independent legal or factual significance. Although California State University, Los Angeles will use the terms in good faith in connection with its AAP, such use does not necessarily signify the company agrees that these terms are properly applied to any particular factual situation and is not an admission of non-compliance with EEO laws, regulations, and objectives. Whenever the term "goal" is used, it is expressly intended that it "should not be used to discriminate against any applicant or employee because of race, color, religion, gender, or national origin," as stated in Title 41 Code of Federal Regulations, Part 60-2.16(e).

In addition to comparing incumbency to availability within job groups, California State University, Los Angeles has conducted studies to identify problem areas in each of its selection procedures (i.e., hires, promotions, and terminations). California State University, Los Angeles will continue to monitor and update these studies during each AAP year. In each case where potential problem areas have been identified, affirmative actions, as appropriate, will be taken consistent with any of the action-oriented programs described in Chapter 9 of this AAP.

Goals are established within each of the job groups at no less than the current availability data for the job group.

## 41 C.F.R. § 60-2.17(b)(1): Workforce by Organizational Unit and Job Group

An analysis of minority and female distribution within each organizational unit was accomplished by a thorough investigation of the *Workforce analysis*.

An analysis of minority and female utilization within each job group was accomplished by a thorough investigation of the *Comparison of Incumbency to Availability* reports.

# 41 C.F.R. § 60-2.17(b)(2): Personnel Activity

Applicant flow, hires, promotions, and terminations were analyzed by job group. An analysis of selection disparities in personnel activity between men/women and whites/minorities was accomplished by a thorough examination of transaction data. See the *Summary of Personnel Transactions Report* for each job group.

#### 41 C.F.R. § 60-2.17(b)(3): Compensation Systems

Compensation analyses were conducted by comparing the salaries for men v. women, and whites v. minorities in each job title.

# CHAPTER 10: INTERNAL AUDIT AND REPORTING 41 C.F.R. § 60-2.17(d)

Inherent in the AAP is the need for periodic self-assessment of problems encountered, corrective action taken, and progress made. Self-evaluation requires complex record keeping systems on applicants, employees, and components of the AAP itself. Periodic reports from supervisors, department managers, the Associate Vice President, HRM, and other relevant persons are required.

The objective of all record keeping systems to be implemented is to assess the results of past actions, trends, the appropriateness of goals and objectives, the appropriateness and relevancy of identified solutions to problems, and the adequacy of the Plan as a whole. In addition, a further objective is to identify the proper corrective actions to be made to all components.

In order to fully achieve the objectives of such a record keeping system, the results of it must lead to follow-up through feedback to managers, supervisors, and staff, through reallocation of resources, through modifications to plans and the record keeping system itself, through appropriate recognition of personal achievements as well as punitive actions for discriminatory acts. For any identified deficiencies, appropriate corrective action will be identified and implemented.

The records that are maintained are the basis for updating the affirmative action plan, including revising the availability data and establishing annual numerical goals. The internal audit and reporting system is used as the basis for evaluating systemic, results-oriented programs and affirmative action efforts.

The California State University, Los Angeles auditing and reporting system periodically measures the effectiveness of its total affirmative action program. The Associate Vice President, HRM:

- 1. Monitors records of all personnel activity, including referrals, placements, transfers, promotions, terminations, and compensation, at all levels to ensure the nondiscriminatory policy is carried out;
- 2. Requires internal reporting on a scheduled basis as to the degree to which equal employment opportunity and organizational objectives are attained;
- 3. Reviews report results with all levels of management; and
- 4. Advises top management of program effectiveness and submit recommendations to improve unsatisfactory performance.
