

1 **Teaching Assignments**

2 (Senate: 10/24/89; President: 11/10/89; Editorial Amendment: 9/00, 8/01)

- 3 a. The pattern of instruction for full-time academic year employees at campuses on
4 quarter system year-round operation shall be three quarters of a period of four
5 consecutive quarters, the fourth quarter of which period shall be an off-duty quarter
6 except as otherwise provided in section 42901, subdivision (b).
- 7 b. Following the initial academic year of service, the three quarters which the faculty
8 member teaches, and the time during which a compensating quarter off may be taken,
9 will be considered for each faculty member in light of the needs of that faculty member
10 and the needs of the department/division/school, as mutually agreed to at the
11 department/division/school and college level. If such agreement is not reached at that
12 level, the final decision will be made by the President, consistent with the resolutions of
13 the Board of Trustees.
- 14 c. Assignment of an academic year employee to academic quarters shall be determined at
15 as early a date as is feasible, but in any event at least one full quarter in advance of the
16 beginning of the next succeeding academic year, unless the faculty member consents to
17 a later determination. No such assignment may be made more than three years in
18 advance.
