Description of the Course Activities

- Introduction to the fundamental principles and practical requirements to manage and maintain art exhibitions - students will gain experience in planning, promoting, designing, and installing exhibitions or events in the Fine Arts Gallery.
- Introduction to administrative procedures on health and safety requirements for exhibition and event planning – the course will provide the students with an understanding of the legal regulations of health and safety, student rights and practical responsibilities.
- Lecture and seminar on the current practices of exhibiting art in a variety of contexts and cultural institutions- including museums, galleries, online and any other exhibition venues. Students will conduct research on contemporary exhibition practices and take field trips to study current exhibitions and museum installations.
