As a preventive measure and based on the guidance of health officials, Cal State LA is temporarily suspending face-to-face, in-person classroom instruction due to COVID-19.

**Classes**

Classes are canceled March 16-19 and will resume March 20 with faculty using means of instruction that do not involve face-to-face gatherings. Students should watch for communications from their instructors and follow their guidance and directives. Remote instruction will continue for four weeks through April 24. As we approach the end of this period, we will re-evaluate the situation.

**Departmental Office**

To promote social distancing as advised by the Los Angeles County Department of Public Health, department staff will discourage visits to the office, and service students through email only.

Please email biomicr@calstatela.edu for all questions or for course registration.

We thank you for your patience, flexibility, and understanding during this unprecedented time.

Sincerely,

Dr. Robert Nissen
Chair, Biological Sciences
