

Course Substitutions - Articulated Courses

If there is a formal course agreement between an external College and CSULA, we call that an articulation. This means that the transfer course is coded in CSULA’s transfer maintenance screen to equal a specific CSULA course. For example, SPCH 101 at Glendale Community College (GCC) articulates to COMM 150 at CSULA. The **CSU Academic Advisement Report (CAAR)** will read this rule and apply it accordingly. There is no need to process a course substitution.

Example 1: SPCH 101 from GCC articulates with CSULA’s COMM 150
