Release of SEVIS Record for Transfer

As an international student on F-1 or an exchange visitor on J-1 status, you are required to attend the institution that issued your I-20 or DS-2019. In SEVIS, only one school at a time can access and maintain the SEVIS record. If a student or exchange visitor transfers to another U.S. school, the SEVIS record must be released to the new school for the processing of the new I-20 or DS-2019.

F-1 students: If you are transferring after the **completion of program**, the release of the SEVIS record must take place within 60 days (F-1) of your completion date. *(Undergraduate: the end of the last enrolled quarter; Graduate: the end of the last enrolled quarter if enrolled in a regular course or date of comprehensive exam or submission of thesis if not enrolled in any other course.)* If you are transferring **prior** to completing the program, the SEVIS release must take place no later than the third week of the requested term.

J-1 students/scholars: The transfer of a J-1 SEVIS record must take place prior to the DS-2019 expiration date.

If you have been **admitted and intend to transfer** to another U.S. school, complete the following information and return the form to IPS. You also must attach a copy of the acceptance letter. Delay in submitting the required documents to IPS for the SEVIS release will result in the termination of your F-1 or J-1 status.
