Required Courses (39 semester units):

COMD 4000: Hearing Science (3)
COMD 4020: Audiology and Audiometry (3)
COMD 4200: Rehabilitative Audiology (3)
COMD 4560: Language Development (3)
COMD 4600: Introduction to Language Science (3)
COMD 4610: Descriptive Phonetics (3)
COMD 4620: Anatomy and Physiology of the Speech Mechanism (3)
COMD 4630: Neuroscience of Communication (3)
COMD 4710: Primary and Secondary Language Disorders in Children and Adolescents (3)
COMD 4720: Fluency and Speech Sound Disorders (3)
COMD 4730: Communication Disorders in Voice, Cleft Palate, and Cerebral Palsy (3)
COMD 4750: Cultural/Linguistic Diversity in Communication Disorders (3)
COMD 4800: Research Methods in Communication Disorders (3)

Optional Courses:

COMD 4510 – Psychosocial Considerations in Communication Disorders (3)
COMD 4740 – Acquired Speech, Language, Cognitive, and Swallowing Disorders (3)
These classes will have to be added to the MA program if not taken prior to admission.
EDSP 4000 – Foundations of Special Education (3)
Not required for Masters programs, but needed for the credential.
MATH/ECON 1090 - Quantitative Reasoning with Statistics (3)
ASHA has recently changed their certification requirements to include a statistics course. Some Masters programs might require a statistics course as a prerequisite to admission; some, including Cal State LA, will require that you take a statistics course during the Master’s program if you haven’t had one yet. Any college level statistics course would meet this requirement; it doesn’t have to be MATH 1090 or ECON 1090.
Basic science courses
In addition to statistics, ASHA also requires one course each in biological, physical, and social/behavioral sciences. Most students have already taken such courses as part of their undergraduate degrees. Once admitted to the program, an advisor will assist students in determining if there are any deficiencies in these areas.
