## SPECIAL SAFEGUARDS FOR FACILITIES OR ACTIVITIES

### SECURITY OF AND ACCESS TO CAMPUS FACILITIES

#### **Campus Buildings**

Campus facilities are maintained to ensure public safety. All campus facilities are key, or keycard accessed, and most are open daily for scheduled campus community use. Campus key control and distribution is a function of the Department of Public Safety. Key-card access is an integrated access management system hosted by the Golden Eagle One Card Office. All key-card access requests for those classrooms with card readers and electrified locks must go through and be approved by the department requesting the access.

UPD operates a student-based program, Eagle Patrol, which is responsible for conducting building security checks and securing the majority of the campus buildings during the evening hours. These buildings are secured starting at 10 p.m., Monday thru Thursday, and 5 p.m. on Fridays and Saturdays. These buildings are closed Sundays except where access authorization has been established in advance. The exception to these closures is the Open Access Lab (OAL), a 24 hour/7 day a week computer lab located in Salazar Hall room 191.

Many events held on campus are open to the public, including those at the bookstore, library, and food court. Access to academic and administrative facilities on campus is generally limited to students, employees, and visitors for the purpose of study, work, teaching, and other University business.

Non-monitored, recording security cameras are located in various buildings, parking lots and other areas throughout campus.

#### **Student Housing**

It is a violation of university policy to gain unauthorized entry, make unauthorized use of, or misuse any University property. Entering a housing apartment or bedroom to which a student has not been assigned, and without permission, constitutes trespassing. Public areas located in all community centers or common areas within the apartment are for the use of the licensees and their guests only. No one may sleep overnight in housing public areas. The Housing Services Office must approve organized functions in public areas in advance.

It is the responsibility of each student housing resident of the apartment to ensure that his/her bedroom door and windows are locked and secured when they are not present or when they are sleeping. Furthermore, it is the responsibility of all residents to ensure that the sliding glass doors, front door and windows in the common area spaces are locked and secured prior to leaving the apartment or while sleeping. Apartment doors are not to be left unlocked to accommodate residents who lose keys, do not carry keys, or to allow access to individuals who are not residents thereof. For reasons of security, no public area exit door is to be propped open at any time or left unlocked after scheduled building operating hours. Eagle Patrol or a Police Officer will conduct routine checks of the housing facility.

### SECURITY CONSIDERATIONS USED IN THE MAINTENANCE OF CAMPUS FACILITIES

Regular inspections and security surveys of campus indoor/outdoor lighting, shrubbery and walkways are conducted by the Department of Public Safety, Facilities Services and/or the office of Risk Management and Environmental, Health and Safety.

This may also include the creation of an Incident Action Plan for special event planning.
