

In Spring 2023, **Dr. Angela Young** (Professor, Department of Management) collaborated with Cal State LA Project Rebound for her Management 4409 Career Development Course.

Dr. Young held weekly virtual resume reviews and career development sessions for students of Project Rebound under the guidance of Summer Branter and Jeffrey Stein at Project Rebound. She also partnered with Zeidy Cabrera, CBE Placement, to invite CBE students and opened the sessions to all college students who needed resume review and help with career-related questions. Dr. Young's Students created a brief career-focused video, and those have been shared with Project Rebound so that they may create a career library of instructional videos.
