Note: We suggest performing a hard refresh of your internet browser after each Navigate360 release. In some cases, you may also need to *clear your browser's cache and cookies*.

Navigate360 for Student Success

Appointment Campaigns

Launch Date Field for Appointment Campaigns

We have added a *Launch Date* field when creating an Appointment Campaign in Navigate360 staff. This field is located on the **Define Campaign** step and allows campaign creators to launch a campaign with a Welcome Message before the appointment scheduling window opens.

Note that if students are added to the campaign via automation, the Welcome Message will send to the student when they are added to the campaign, not necessarily on the chosen Launch Date.

Navigate360 for Recruitment Success

Fixes

Fixed an issue where application file imports were failing when more than one custom field existed in the application.
