Navigate360 Staff Platform: STA 25.26 Release Notes

[Help Center Manager](#)

2 months ago · Updated

Follow

Parts of Navigate360 Impacted: Student Success, Data Exports, LMS Integration

Training Release Date (Expected): 15 Dec 2025

Prod Release Dates (Expected): 22 Dec 2025 (Prod A) / 29 Dec 2025 (Prod B)

General Availability Dates: 23 Dec 2025 (Prod A) / 30 Dec 2025 (Prod B)

Release Note Summary: This release focuses on enhancements to the Canvas/Navigate360 LMS Integration, including the ability to view and search on the current course score/grade sent from Canvas. It also includes a new configuration for the Navigate360/Forage data connection and fixes to the platform.

Announcements

Release Timing Note

Starting with the first release of 2026 (STA 26.1), partners will notice an adjusted biweekly training release day. Planned training site releases will move to Thursdays. Production site releases will continue on Mondays and Wednesdays. The biweekly cadence remains unchanged. Final release dates are always subject to change; please note specific dates and updates on release notes. This change provides additional time for EAB testing and review before updates reach partner sites. This update also provides space for incremental hotfix releases on off weeks to accommodate critical changes to production environments.

The release naming convention for 2026 will follow the formula STA.26.XX.YY. This is the same convention used in previous years, with the year indicator shifting from 25 to 26. The components mean the following:

- 26 is the calendar year
- XX is the sequential major release number
- YY is the incremental hotfix number applied to that major release (if needed)

Examples. STA 26.5 is the fifth major release of the Navigate360 Staff platform in 2026. STA 26.5.1 would be a hotfix applied to STA 26.5 prior to the release of STA 26.6.

New Features and Enhancements

LMS Integration

Improvements to the LMS Assignments Feature

In order to expand LMS data points to drive student support and intervention, we are now importing three new data points, **LMS Current Course Score**, **Hidden Grade** for Assignments, and **LMS**

Current Course Grade for our partners who leverage our LMS integration. This change will be reflected in Navigate360 for Student Success in several places and will have several downstream effects for your users.

Partners already leveraging the LMS integration with Navigate360 can contact Navigate360TechSupport@eab.com following the STA 25.26 release to enable these data points in their site. New data points are available for any LMS provided source system data availability and retrievability.

After the feature is enabled, users need to have the existing *View LMS Data on the Student Profile* permission to see the new data points, and the existing *View and Search on LMS data fields* permission to search on this data in Advanced Search and V3 Reports. LMS Current Course Score will appear in the Courses section of the student profile. A new indicator indicating *Grade Hidden from Student* now indicates hidden assignment grades on the LMS Assignments grid on the Student Profile. Note that the *LMS Current Course Grade* field is only available to view and search on Progress Reports and Reports.

Student Profile

- View Student Profiles
 - View Student Profiles for All Students
 - View Student Profiles for Only Certain Students
 - View Only Assigned Students' Profiles
 - View Only Profiles of Students Enrolled in Their Class
- View the Overview Tab on the Student Profile
- View Success Progress Tab on the Student Profile
- View Reports / Notes Tab on the Student Profile
- View the Study Hall Tab on the Student Profile
- View the Appointments Tab on the Student Profile
- View the Conversations Tab on the Student Profile
- View Alerts on the Student Profile
- View the Custom Links Sidebar on the Student Profile?
- View Custom Attributes
- View Predicted Support Level on the Student Profile
- View LMS data on the Student Profile

Search

- View the Search Page and Search for Students
- View and Search Using the Advanced Search Filters
- View and Search on GPA-related Information in the Advanced Search
- View GPA in Search Results?
- View Staff Alternate ID in Search Results
- Allow user to filter by Success Markers
- Allow user to view/filter by Support Level
- View and Search on Race or Ethnicity Filters in the Advanced Search
- View and Search on LMS data fields
- Search for Users across All User Types
- Quick Search (User Can Search on All Users via Quick Search)

Once the toggle for these additional LMS data points is enabled, you can use the data in several ways. First, for users with the *View LMS data on the Student Profile* permission, the LMS Current

Course score appears on the Student Profile Courses tab in the main Courses table.

Courses							
Term: Fall 2025 (Default Te... ▾)							
Actions ▾							
<input type="checkbox"/>	COURSE	PROFESSOR	DAYS/TIMES	MID	FINAL	LMS CURRENT COURSE SCORE	ABSENCE
<input type="checkbox"/>	A_S-100-zxczcsdd Air Force Today I	Mavis Brooks (she/her)	08/08/2025 - 12/31/2025 MTWF 5:00am - 7:30am CT Not Specified			75.12%	0 (0)
<input type="checkbox"/>	Dropped Section CM-913-Section 1 College Math 3	General Gates	08/01/2025 - 12/31/2025 MWF 10:00am - 11:00am CT Not Specified			N/A	0 (0)

If an assignment grade is hidden from the student and that data is imported with your LMS integration data, it is indicated in the *Grade Hidden From Student* column in the LMS Assignments table on the Student Profile Courses tab. Students cannot see the percentage grade when viewing their own assignments on the Student Home page, just an N/A, if the grade is hidden.

LMS Assignments [?]								
Term: Fall 2025 (Default Te... ▾) Course: All Courses ▾ Type: Any Type ▾ Status: Any Status ▾								
COURSE	TERM	ASSIGNMENT	TYPE	STATUS	DUE DATE	PERCENTAGE	GRADE HIDDEN FROM STUDENT	
913-Section 1 College Math 3	Fall 2025	Essay on the Fundamentals of Algebra	Other	Completed On Time	10/15/2025	100%	Yes	
913-Section 1 College Math 3	Fall 2025	Trig Equations	Assignment	Completed On Time	12/02/2025	56%	No	
913-Section 1 College Math 3	Fall 2025	Simple String Theory	Assignment	Not Completed On Time	11/01/2025	35%	Yes	

Next, for users who can view and search LMS data, LMS Current Course Score filters are available on the Advanced Search in the LMS Assignments drawer and both LMS Current Course Score and LMS Current Course Grade are filters in V3 Student Enrollments Report. Examples are displayed

below.

Include Dropped Courses

Finally, LMS Current Course Score and Grade can be incorporated into Progress Reports. This affects several aspects of Progress Reports and also the Progress Report Data Export.

As part of the changes to the Progress Report, there several new configurations. Checking *Pre-Fill LMS Current Course Grade Value* auto-populates the Grade column with the current course grade from the LMS as long as that value has been configured in the *Letter Grades* page of the Administration page. Instructors can still change the grade and that change will be saved to the progress report. Your administrator can also select the *Show LMS Current Course Score Column* and/or the *Show LMS Current Course Grade Column* to display read-only columns with the student's current course grade and score for the instructor to view. These columns, like other Progress Report fields, can have their names customized.

Pre-fill LMS Current Course Grade Value?

Show LMS Current Course Score Column

LMS Current Course Score Verbiage:

Show LMS Current Course Grade Column

LMS Current Course Grade Verbiage:

The pre-filled LMS Current Course Grade can be updated or simply saved as is by an instructor filling out a Progress Report. Submitted progress reports, including any new Progress Report columns, can be viewed in the History tab of the Student Profile as a Progress Report entry and this includes the Course Score and Grade.

PROGRESS REPORT DETAILS ✕

At-Risk to Fail Your Class? Yes No

How Many Absences?

Grade

Current Score ⓘ 75.12%

Current Grade ⓘ B+

Comments Customized

Note that while a Progress Report campaign is open, the LMS Current Course Grade value in the Progress Report claim page can change nightly with the data load. Once a professor submits a Progress Report, the LMS Current Course Grade and LMS Current Course Score are saved with that value on the Progress Report as of the time of submission.

Professor Brooks:

You have been asked to fill out progress reports for students in the following classes. Update each student based on your best knowledge of their performance at this point in the term.....

A_S-100-Zxczcsdd Air Force Today I

	Student Name	Alert Reasons	How Many Absences?	Grade	LMS Current Course Score	LMS Current Course Grade
1	Abbott, Belle	<input type="text" value="Alerts Reasons"/>	<input type="text"/>	B+ <input type="text"/>	75.12%	B+
2	West, Nicki	<input type="text" value="Alerts Reasons"/>	<input type="text"/>	<input type="text"/>	65.11%	Pass

The new fields added to the Progress Report can be searched on in the Progress Reports Report and are included in the corresponding data export. Refer to the [Progress Reports Report Data Fields](#) article for information on the fields included in the updated export.

Forage Configurations

Forage Updates in Navigate360

For partners participating in our Forage Insider program, we've added new Forage Fields section to the Global Configuration page. This section allows your institution to control which Navigate360 student data fields are synced with Forage to support Forage auto-account creation, which streamlines the student experience in claiming their Forage account. To learn more or opt into the Forage Insider program visit <https://forms.eab.com/s3/Forage-Insider-Program-Opt-in-Form>.

Forage Export Fields

Choose which fields to include in the Forage export. School ID, Student Name, Student Email, and Student ID are **required**. Major and GPA are only used by Forage when a student has given consent; disabling these fields may affect that functionality.

- School ID
- Student Name
- Student E-mail
- Student ID
- School Name
- Classification
- Major
- Cumulative GPA
- Date of Birth
- City
- State
- Zip

If any field is deselected, it will not sync with Forage. Only adjust these fields as needed. Note that if Major and/or GPA are disabled, the Major/ GPA consent message for students will not appear when

they claim their Forage account.

Fixed

Various Fixes

- Resolved an issue where the AI Assistant for Students was not loading correctly for mobile users.
- Resolved an issue where nested bullet points were not displaying correctly in email messages created from Content Templates where the nested bullet points displayed correctly.

Hi [Jessica Lanfranco \(she/her/ella\)](#)! While exact dates can change, we are anticipating the STA 26.1 release to go to *training* on 1/5/26 and then to *production* the following week, likely 1/12/26 and 1/14/26. Keep an eye on the forthcoming STA 26.1 release notes for specific dates.
