### ELIGIBILITY FOR RETIRED ANNUITANT APPOINTMENT

A Retired Annuitant may **only** serve without reinstatement from retirement and maintain CalPERS retirement benefits if appointed by a public employer:

- **During an emergency to prevent the stoppage of public business or**
- **Because the retired person has specialized skills needed to perform work of limited duration** (Gov. Code sections 21224, 21229, and 7522.56).

Limited duration work is intended to:

- **Provide extra help to eliminate a backlog,**
- **Complete a time limited special project, or**
- **Provide short-term support beyond what regular staff can reasonably complete.**

Extra help assignments should have a projected completion date for specific assignments and/or project goals and deliverables. Ultimately, work of limited duration is defined by a specific task, project, and/or organizational needs, as proposed by the employer. When the work is complete, the Retired Annuitant's employment must end. Retired Annuitants should not be considered permanent solutions to business needs, and their appointments cannot be indefinite, regardless of the nature of the Retired Annuitant's position and the terms of the relevant employment agreement. Retired Annuitant appointments without an established end date can lead to a violation.

For additional guidance, refer to the *Employment of a Retiree* section in the [State Reference Guide \(PDF\)](#) or [Public Agency & Schools Reference Guide \(PDF\)](#).
