

ProgFest 2012

Saturday, February 18th, 8.00AM to 3.00PM

California State University, Los Angeles
5151 State University Dr., Los Angeles, CA 90032

<http://progfest.calstatela.edu>

The Department of Computer Science hosts the annual Programming Festival that will offer high school and community college students an opportunity to solve college-level and real-world programming problems by applying the principles of computer science.

- Each team will have five hours to solve nine problems.
- Contestants may use Java, C, C++, C#, J#, VB, or VB.NET.
- Contestants are limited to the available development tools, which are Eclipse, Netbeans, JBuilder, Visual Studio .NET, and Visual Studio 6.
- Contestants may bring any number of books, notes, or other printed material. Absolutely no removable media, internet access, or outside help permitted.

For more information or to register, please visit: <http://progfest.calstatela.edu>
or contact CSULA College of ECST's Department of Computer Science (323)343-6690
