INTENT TO RAISE QUESTIONS

2. Senator Faust announced her intent to raise the following questions of the Vice President for Administration and Finance:

I would like to ask for clarification of one of the questions that was answered. Are graduate teaching assistants and research assistants included in the category of UAS in the parking count of who gets faculty/staff parking?

I have another question, not about parking, and it is one that has been asked before. What is going on with signs in the Engineering and Technology Building? More than a year after moving in there we still do not have signs pointing visitors to departments and offices on the fourth, fifth, and sixth floors.
