

CALIFORNIA STATE UNIVERSITY

# BIOMANUFACTURING TECHNICIAN PROGRAM

in Partnership  
with  **Biocom  
California  
Institute**

**CSUF**

## 3 Courses

Time Commitment:

## 6 Months

Approximate Cost:

## \$4,950\*

Course 1: Biomanufacturing Fundamentals (CSULB)  
Course 2: Materials, Processes, and Technologies (CSUF)  
Course 3: Emerging Applications of Biomanufacturing  
Bioscience and Technology (Cal State LA)

This program can be completed in less than one year with minimum requirements. It is ideal for college graduates and entry-level biomanufacturing professionals.

When you invest in yourself and your education, you can do it knowing we've invested in you as well, with instructors who are leaders in their fields who will help you make a successful transition from the classroom to the next step of your career.

\*This is an approximate cost of completing the certificate program at current semester tuition rates. Tuition is subject to change at any time.

## REGISTER NOW

### DEMAND FOR BIOMANUFACTURING TECHNICIANS IS ON THE RISE

In the in-demand fields of biomanufacturing, biotechnology, and biopharmaceuticals, it's crucial to stay ahead of the dynamic landscape – and the new opportunities and challenges that come along with it. That's why our practical program moves you quickly away from classroom theory and into hands-on training where you'll work to learn rather than learn to work.

Upon course completion, you will gain the ability to understand biomanufacturing practices, current Good Manufacturing Practice guidelines, industry quality standards, regulatory compliances and emerging applications of biomanufacturing for bioscience and technology.

You will also receive a digital badge for each completed module and the entire Biomanufacturing Technician program, which can be displayed on your resume or online profile as a visual representation of the skills and knowledge you have earned.

COLLEGE OF  
**PROFESSIONAL &  
GLOBAL EDUCATION**
