Basic Parking Rules and Regulations
The responsibility for finding a legal parking space, as well as knowing where and when a parking permit is valid, rests with the vehicle operator.

The purchase of a parking permit does not guarantee a space to park and the inability to locate a space is not considered a valid justification for violating University Parking Regulations.

Overnight parking is prohibited except in Lot 5 and Paseo Rancho Castilla east of Mariondale Avenue to Hellman Avenue bridge, with valid permit only. Overnight parking in other lots is prohibited unless authorized by University Police. Personal notes or explanations left on vehicles are not substitutes.

A parking citation may be issued without benefit of prior warning to any vehicle on University property under the following conditions:

- Parking without a permit in any designated parking space.
- Parking without properly registering the correct plate number to a valid permit.
- Parking with an invalid, expired, or revoked permit.
- Beyond the limit in a time-controlled zone, which is enforced 24 hours a day, 7 days a week.
- Parking on any two sides of a street without painted curbs.
- Blocking drivesways, walkways, or any other unmarked place.
- Parking is not restricted. Parking in a disabled stall without a valid permit.
