

Dear Friends and Colleagues,

Thank you for your participation in the Pat Brown Institute's Civic University 2.0. The group presentations by members of both the neighborhood councils and Mayor's Youth Advisory group were thought-provoking and engaging. The weekly in-depth group discussions examined how to make a compelling argument for your position and prepared you to collectively design a working experiment on how to develop and defend a proposal in the public arena. The Institute values your support of our civic education and engagement work and appreciates your completion of our evaluation form.

We thank, the Office of Los Angeles Mayor Eric Garcetti, the Department of Neighborhood Empowerment, the Center for Nonprofit Management, and the College of Professional and Global Education at Cal State LA, as well as all of our distinguished speakers and lecturers.
