Testimonials from Past Students:

This was a great class, I learned way more about my finances. The service hours was the best part. I'm still keeping in contact with the people I've met after this semester. Overall, it was a great class to be part of.
(Anon student #1)

Great class and great professor. Class material was very educational and life changing!
(Anon student #2)

This was an amazing course. I feel well prepared to take on my finances. Thank you!!
(Anon student #3)

This class has resourceful. I enjoyed every moment of it. Something I am thankful for is the push to reach out to the community, to know our surroundings and know how to use them
(Anon. student #4)

I highly recommend this course to all students no matter their major. This course brought a sense of awareness to help keep me from making damaging financial decisions. Even though it was an introductory course the material, lectures, presenters, workshops, service learning, etc. were VERY informative. Dr. Doran is very passionate about this subject and she shows it in her intents to have students fully engage with community serving agencies and financial coaching services. Thank you for your commitment in bringing financial awareness to low-income communities Dr. Doran. Your work is greatly appreciated.
(Anon. student #5)

I found this class very empowering. I learned so much about my personal finances and I feel very confident about how I have control over my money. I learned how to manage it and how to keep it growing. Love the class
(Anon. student #6)

Dr. Doran has so many connections and shared them with us through guest speakers. This is what made this class so great. We not only learned about the subject matter but learned further from those working in the field.
