

How to Defer Enrollment to a Later Term

Students who are admitted but do not register in the semester for which they applied must reapply through Cal State Apply and pay another application fee if seeking admission to any future semester. There is no deferred admission.

Students who want to defer enrollment to a future term must follow the conditions as stated below:

- Resubmit an application to Cal State Apply and pay a non-refundable \$55 fee.
- Contact University admissions notifying that you will be reapplying to Cal State LA (contact information will be stated below).
- Must reapply to the College and submit all documents required for the program.
- Students will not need to resubmit their transcripts.
- International students will not need to go through IERF or WES again, unless after two academic years. Then they will have to resubmit their transcripts to one of the designated agencies.
