# Using Simple Restore to Import Course Data

Materials and assignments from older courses can be imported into a new course using the Simple Restore feature in Moodle.

## Importing Materials and Assignments

1. Locate the Simple Restore block.
2. Click Import All Materials Into Current Course.
3. Select the Backup File you would like to import materials from.
4. Verify the course name where the imported data will transfer to and click **Continue**.

## Simple Restore: Import all materials into current course

Home / My courses / Moodle 3.4 / Simple Restore

User private backup area

Manage backup files

Name	Size	Modified
backup-moodle2-course-32595-fargueta-a-20150413-1447-nu.mtz	7.2MB	13 Apr 2018, 02:48:33 PM

## Simple Restore: Import all materials into current course

Home / My courses / Moodle 3.4 / Import all materials into current course

### Moodle 3.4

Confirm

You are about to **import all materials into current course**. Proceed?

4

**NOTE:** Depending on the size of the course, the import process may take up to several minutes to complete.
