Volunteering with LATM also offers incredible opportunities such as:

LOS ANGELES TEAM MENTORING

OUR MISSION & HISTORY

Our mission is to guide middle school students growing up in challenging urban environments to recognize and reach their full potential as members of our community. Through a school-based team approach to mentoring, young adolescents are given the tools and support necessary to make positive choices during a critical period in their lives.

Los Angeles Team Mentoring (LATM) was founded in response to the 1992 LA Riots. 28 years later, we continue to invest in historically underrepresented communities by providing meaningful mentoring relationships and opportunities in an environment of diversity and inclusion. To date, LATM has transformed the lives of 28,000 students through 2.8 million hours of service by 9,000 caring mentors.

OUR YOUTH

LATM serves at-risk middle schoolers (ages 11 - 14) from communities of concentrated poverty where youth development opportunities are limited. At this age, they are undergoing many changes - physical, cognitive, social and emotional - and are increasingly susceptible to the negative influences around them. Our reach extends to youth in foster care and households where no family member has a high school or college education.
