### CALIFORNIA CLASSIFICATION FACTORS

The three main areas that the state of California concluded are the primary categories of evidence to draw a distinction between an employee or an independent contractor are:

- Control
- Services performed are outside the normal course of business
- Worker customarily engages in an independently established trade or business

It is critical that you, the employer, correctly determine whether the worker providing services is an employee or independent contractor. In situations where violations of employment tax rules and regulations are detected, California will assess taxes and, in some cases, levy penalties and interest, and can expose the university to additional legal issues. Before a worker is hired as an independent contractor, the following checklist must be completed to help determine whether an employer/employee relationship exists.

1. **CONTROL.** Is the worker free from the employer's control and direction? Yes  No
- (This means Cal State L.A. must not be able to control or direct what the worker does, either by contract or in actual practice. Even if no instructions are given, the control factor is present if the employer has the right to control how the work results are achieved.)*
- If no, explain: \_\_\_\_\_

2. **SERVICE PERFORMED.** Are the services to be performed within the usual course of business at Cal State L.A.?Yes  No

*(Services performed should be outside the usual course business or be performed outside of all the places of business of Cal State L.A.)*

If yes, explain: \_\_\_\_\_

**BUSINESS:** Worker customarily engages in an independently established business.

3. **SIGNIFICANT INVESTMENT.** Will the worker use his or her own facilities/equipment and/or supplies/materials required to perform services?Yes  No   
*(A worker who provides his or her own equipment, supplies, and etc. is typically an independent contractor.)*

4. **BUSINESS INSURANCE.** Does the worker carry business insurance?Yes  No   
*(An independent contractor ordinarily carries business insurance, such as general liability, business automobile liability, and workers' compensation (medical insurance is not a form of business insurance.)*

4a. If no, please complete the Risk Identification and Evaluation form located in page six (6).

5. **PAYMENT OF EXPENSES.** Will the University pay the worker's business or travel expenses?Yes  No   
*(Employers typically reimburse employees for business expenses. An individual who is paid a fee for services without being reimbursed for business expenses is typically an independent contractor.)*

6. **SERVICES AVAILABLE.** Does the worker make his or her services available to others?Yes  No   
*(An individual paid by other employers for the same type of service provided to Cal State L.A is likely an independent contractor.*

7. **PAYMENT BY HOUR, WEEK OR MONTH.** Will the University pay the worker by the hour, week, or month, rather than by commission or by the job?Yes  No   
*(Payment by the hour, week, month, etc. generally indicates an employer/employee relationship.)*

8. **REALIZATION OF PROFIT OR LOSS.** Will the worker bear the risk of making a profit or loss under the arrangement?Yes  No   
*(A contingent fee or commission arrangement indicates an independent contractor relationship. Employees are typically paid by salary.)*

**RELATIONSHIP OF THE PARTIES:** Intent of parties concerning status and control of worker.

9. **RIGHT TO TERMINATE.** Could the University terminate the worker at any time without incurring liability?Yes  No   
*(An at-will relationship is evidence supporting an employer/employee relationship.)*

10. **REGULAR BUSINESS ACTIVITY.** Is the work to be performed part of the regular business of the University, such as teaching or research?Yes  No   
*(A lecturer teaching a course for credit or a worker performing IT services already being performed by staff is likely to be an employee)*

**11. JUSTIFICATION OF CLASSIFICATION FACTORS**

If you have determined that the worker is an independent contractor, please provide the justification for your conclusion based upon your responses above.
