

Interested in earning a Ph.D. and Working at the University Level?

The 2015-16 California Pre-Doctoral Scholars Program is designed to increase the diversity of the pool from which the California State University draws its faculty. It does so by supporting the doctoral aspirations of CSU students who have experienced economic and educational disadvantages. A special emphasis is placed on increasing the number of CSU students who enter graduate programs at one of the University of California campuses. See attached or download the application form and instructions from our website at:
