

## **Supplemental Admission Criteria for Impacted Programs Effective Fall 2014**

Program impaction means that the number of applications from fully eligible students to a designated major far exceeds the number of spaces available in that major. In these major programs, students are admitted to the major only if they meet the supplemental admission criteria for the major, as well as any applicable campus impaction admission criteria. The campus impaction criteria for 2014-15 will be determined once the application deadline is closed.

Freshman students who are not admitted to a selected impacted program may still be admitted as undeclared or alternative majors provided they meet all applicable admission requirements. Transfer students who are not admitted to a selected impacted program may still be admitted as alternative majors provided they meet all applicable admission requirements.

The supplemental admission criteria for the impacted major programs are listed below. As indicated by the asterisks, applicants must meet both the minimum campus impaction GPA requirement as well as the supplemental admission GPA criteria for the selected program.
