The goal of this conference is to create an opportunity for schools to learn strategies, attain resources, and build a network of support to make the vision and outcome of integrating our students with disabilities in the least restrictive environment a reality.

We are looking for presentations that focus on how to make the Common Core accessible to all students both in general and special education.

Participants should receive tools and resources they can start utilizing in their classrooms right away.

Each presentation room will have an LCD Projector, screen and chart paper.

Presenters will need to bring their own computers and adapter.
