WALK-IN TUTORING

Spring Semester 2017

We are offering walk-in tutoring for math, business, science, and other courses depending on tutor availability—check the courses listed on the back of this sheet. During walk-in tutoring hours, you can see a tutor for short-term help without having to make an appointment. While waiting for the walk-in tutor to assist you, you can work on your homework. The tutor will make every effort to work with each student. The wait time may vary depending on the nature of the questions and the number of students waiting for assistance. Please be patient. You are encouraged to work with and help other students while you are waiting. Explaining to others is an effective way for you to check your understanding and to help you remember the material. You might meet other students and decide to form your own math study group.

To use walk-in tutoring, just check in with your Cal State LA photo I.D. card at the front counter. Go to the designated walk-in tutoring area and sit at the table assigned for your course. Place the goldenrod colored slip of paper with your course listed on the table in front of you so that the tutors can see the course. You will be assisted on a first-come, first-served basis. So that you don't have to keep your hand raised when the session is busy, use the signaling device (GREEN up means OK; RED up means I HAVE A QUESTION) on the table to indicate to the tutor that you need help. If you need more help than the walk-in can provide, check at the front counter regarding online tutoring for math and other subjects is also available. Ask at the front counter where you checked in.

Come prepared by reading the assigned textbook chapter(s) and doing as many problems as you can. Bring your textbook and lecture notes with you. Expect to do your own work with the help of the tutor. If you bring in completed homework, the tutor will ask you to explain how you solved the problems. The tutors cannot help you with take-home exams.
